No. 12I.—22nd July 1930.—The following draft of rules and schedule of rates of tolls, which, in exercise of the power conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make for the Roypasa-Bheduria khal, commonly called the Roypasa khal, joining Kalijira river at the north, Karapur Bagadi in the west and Nathullabad khal leading to Barisal at Dephulia and Haripasa in the east, in the district of Bakarganj, is hereby published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 12th September 1930, and any objections or suggestions received by the undersigned before that date will be considered:—

Draft rules and schedules of rates of tolls.

1. Every vessel on entering the channel and before passing the gate at either end or even when entering the channel from a side khal between the gates shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, a vessel may be measured again by any person appointed by the District Board of Bakarganj on this behalf.

2. Vessels for the purpose of the determination of maundage shall be divided into two classes as below:—

Class I.—To include all vessels of the types of country boats, including saltees and hapors (fish cages), house boats, kosh boats, green boats, etc.

Class II.—To include steam boats, motor boats, flats and barges and other square-built vessels.

3. The maundage of every vessel, whether laden or empty, shall, for the purpose of Act V (B. C.) of 1864 and of these rules, be determined by the following measurements:—

CLASS I.

A. The product of one quarter the length of the vessel from stem to stern measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B. The measurement of the length is to be made in feet, rejecting inches, the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. **Saltees.**—The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

CLASS II.

For vessels of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one-half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds. In the case of steamers and motor boats the maundage determined as above shall be reduced by one-third as an allowance of engine space.

For vessels of class II which are furnished with reliable way bills, the gross maundage of cargo shown by the way bills or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which must be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the sarang, manjee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket must be kept on board the vessel and in possession of the person in charge of the vessel and must be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of Government, District Board, other local bodies or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the District Board of Bakarganj from time to time.

10. The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length and 5 feet in breadth shall be permitted to enter the canals.

12. The rates of toll shall be as follows:—

(1) On all vessels empty or laden, per hundred maunds—Twelve annas.

(2) On all vessels empty or laden, for 12½ maunds or less—One anna six pies.

(3) On rafts of bamboos, grass, timber, etc., not exceeding 50 feet in length and 5 feet in breadth—Six annas each raft.

Tolls will be levied at Dephulia, near Baniakati bridge.

13. For boats frequently using the canal, such as boats carrying passengers, grass or perishable articles monthly tickets will be issued at 10 times the ordinary toll.

14. Every vessel which has paid toll shall be allowed to remain in the canal for three days inclusive of the days of entry into and leaving the canal. A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month. Provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. No vessel carrying exclusively police officers or servants, soldiers and officers of the British Army, post mail runners, officers of the Irrigation Department on duty, officers and servants of the toll office for the canal referred to in these rules while on duty, or the vessels of such other persons as may be exempted by a resolution of the District Board of Bakarganj, shall be liable for toll in the canal.

16. Any matter relating to the mode of collection of tolls and other relevant points, not provided for in these rules, shall be decided by the District Board of Bakarganj at a meeting, and shall be subject to the approval of the local Government.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

I beg to submit the Accounts for the year ended 31st March 1929.

CAPITAL ACCOUNT.

RECEIPTS.—The receipts for the year ended 31st March 1929, amounted to Rs. 35·37 lakhs against the Annual Budget estimate of Rs. 26·98 lakhs. The actuals and the estimates of the different sources of income compare as follows:—

	Budget.	Actuals.	Difference.

EXPENDITURE.—The total expenditure for the year was Rs. 63·70 lakhs or Rs 21·70 lakhs less than the budget provision of Rs. 85·40 lakhs. The main items of difference between the estimates and the actuals compare as follows:—

	Budget.	Actuals.	Difference.
	Rs.	Rs.	Rs.
Cost of land ..	62,50,000	46,82,200	15,67,800

Total ..	85,40,681	63,70,300	21,70,300

No value is included in the asset side of the balance sheet in respect of surplus land in possession of the Trust nor in respect of mortgages and rent charges executed by the purchasers. These at 31st March 1929 were estimated as follows:—

	Rs.
Surplus land available for auction ..	1,72,62,000

Expenditure during the year ..	85·56 „	63·70 „
Closing deficit at 31st March 1929..	344·82 „	313·43 „

REVENUE ACCOUNT.

RECEIPTS.—The total receipts for the year are Rs. 51·82 lakhs against a budget estimate of Rs. 44·27 lakhs. The increase of Rs. 7·55 lakhs is distributed over almost all of the revenue heads of income appearing in the budget.

EXPENDITURE.—The expenditure for the year was Rs. 29·30 lakhs against a budget provision of Rs. 31·38 lakhs. The reduction in expenditure of Rs. 2·09 lakhs is principally due to a gain in exchange in remitting the interest on sterling debenture loans, and reduced expenditure on stamp duty and establishment charges.

To the total revenue expenditure of Rs. 29·30 lakhs there remains to be added a sum of Rs. 1·31 lakhs representing the depreciation on a valuation of the Trust investments in Government securities, etc., made at 31st March 1929.

The closing balance on revenue account shows a surplus of Rs. 3,87,86,362-0-2 of which a sum of Rs. 3,13,42,883-9-5 has been spent on capital account to meet expenditure in excess of capital receipts. The net balance Rs. 74,43,478-6-9 was held as follows:—

RESOLUTION ON THE REPORT OF THE ADMINISTRATION OF THE JAILS DEPARTMENT, BENGAL, 1929.

POLITICAL DEPARTMENT.

Jails.

CALCUTTA, THE 25TH JULY 1930.

RESOLUTION—No 3376P.J,

Read—

The Report on the Administration of the Jails Department of the Presidency of Bengal for the year 1929.

Read also—

The Reports for the years 1927 and 1928 and resolutions of Government thereon.

1. The average jail population in the jails of Bengal rose to 14,477, thus maintaining the somewhat noticeable increase remarked in the three preceding years. The average number of male convicts per diem was 14,325 and of females 152. The number of admissions during the year was 77,981 as against 74,774 in the preceding year, of whom 130 were young persons of less than 16 years of age Government agree with the Inspector-General that the appreciable rise in the admission of juvenile prisoners to ordinary criminal jails is to be deplored. An unsatisfactory feature, and one to which Government have on previous occasions drawn the attention of Magistrates, is the fact that 28 per cent. of convicts received sentences not exceeding one month, while a further 25 per cent. received sentences not exceeding three months. The number of reconvicted prisoners admitted showed, however, a slight decrease.

2. The Governor in Council observes with pleasure the continuance of the progressive improvement in the death-rate of prisoners. In the year under review this fell to 12·2 per mille, which is the lowest figure on record in this province. This figure is an indication of the skill and care exercised by Superintendents and their staff, particularly the medical staff, and is likewise a satisfactory comment upon the rules laid down for the diet and treatment of prisoners in the jails of this Presidency.

3. The total cost of guarding and maintaining the prisoners shows a slight increase, the decrease in dietary charges being more than counterbalanced by the larger expenditure on establishment consequent upon the increased rates of pay granted to head warders and warders and certain additions to the staff in central jails.

4. Although the daily average prison population was higher, the daily average number of convicts under sentence of labour decreased.

5. The total earnings of the manufacturing departments of the jails showed a slight increase from Rs. 4,17,555 in 1928 to Rs. 4,19,250 in 1929. Steps have recently been taken with a view to securing that the other departments of Government are not only aware of the articles which the Jails Department manufacture and the rates at which they are able to supply them, but shall place with the Jails Department their orders for such articles as a matter of course.

6. The average period of detention of prisoners awaiting trial shows a regrettable increase. The total average for Sessions cases being 56 days as against 45 of the preceding year, and in cases other than Sessions cases 25 as against 21 of the preceding year. The figures for the districts of Krishnagar, Dacca, Rajshahi, Bogra, Pabna and Faridpur are particularly deplorable in respect of Sessions cases, while in other cases Dacca, Berhampore and Chittagong are noticeable. The attention of the Judicial Department will again be drawn to these delays.

7. The increased rates of pay granted to the warder staff have encouraged the men to remain in the service and have contributed to the decrease in loss of efficiency due to sickness. Before any marked improvement in the general standard of their work can be expected to appear, arrangements, now unhappily held up for lack of funds, must be made for affording them suitable training in their difficult duties when they join the force.

8. The Governor in Council notices with pleasure the success of the efforts to provide primary education for young prisoners in the Alipore Central Jail where the scheme has now been sanctioned as a permanent measure. It is hoped that primary education will soon be introduced in the other four central jails with equally successful results. The

importance to the control of crime in the province of according correct treatment to young offenders cannot be over-estimated, and the very interesting and encouraging account which the Inspector-General is able to give of the development of the Borstal School at Bankura should not only lead the Courts to study the possibilities of the Act and make a discriminating use of the institution, but should attract and hold the interest and active support of all persons who desire to assist in the conversion of potential criminals into useful and productive citizens. The Borstal School can do much for young persons committed to it, but its efforts will go in vain unless the public at large recognise that they and they alone can ensure the ultimate success of its work by the practical help and sympathy which they extend to the boys on return to normal life, and by actively participating in the work of the After-care Associations which are assisting their return to society. The Governor in Council again desires to place on record his appreciation of the services of those non-official gentlemen who have shown a practical interest in this work.

9. The effective separation of different classes of prisoners is as important to the prevention of crime as it is difficult to ensure. During the year under review arrangements were completed for converting the Presidency Jail into a special jail for the confinement of habitual offenders and recidivists, and it is hoped that this step may prove to be the first of others in this direction. Contamination does not, however, take place only after conviction. The accommodation for undertrial prisoners has long ceased to be sufficiently spacious to admit of the segregation of known offenders from other persons awaiting trial, and the problem can only be solved by extensive new building projects entailing considerable expenditure.

10. The inadequacy of the provision for the accommodation of lunatics in this Presidency continues to lead to the incarceration of prisoners in criminal jails who ought to be receiving proper treatment in institutions devoted to the purpose.

11. The number of offences committed by prisoners in jail again shows a decrease although the daily average population has risen. The number of prisoners punished with whipping was 9 as against 5 in the preceding year. In 21 jails out of 25 there was no punishment of whipping.

12. The Governor in Council regrets that financial difficulties have prevented more rapid progress in the introduction of those reforms recommended by the Jails Committees. With the means at his disposal Colonel Simpson and the staff of his department have not spared themselves in the effort to ensure that everything possible was done to minimise the effect of financial stringency on the solution of the difficult problems with which they are faced in this Presidency. Mention was made in the resolution of last year of the distinguished services rendered by Lieutenant-Colonel Hamilton who has since retired from the service, and the Governor in Council desires to reiterate his sense of the loss which the department has suffered by his departure. He also desires to acknowledge the good work done during the year 1929 by the officers specially mentioned in Colonel Simpson's interesting report.

Order---Ordered that a copy of this resolution be forwarded to the Inspector-General of Prisons, Bengal, for information and guidance.

Ordered that a copy of this resolution and a copy of the report be submitted to the Government of India in the Home Department.

Ordered also that the resolution be published in the *Calcutta Gazette*.

NOTIFICATIONS.

[Second publication.]

No. 121.—22nd July 1930.—The following draft of rules and schedule of rates of tolls, which, in exercise of the power conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make for the Roypasa-Bheduria khal, commonly called the Roypasa khal, joining Kalijira river at the north, Karapur Bagadi in the west and Nathullabad khal leading to Barisal at Dephulia and Haripasa in the east, in the district of Bakarganj, is hereby published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 12th September 1930, and any objections or suggestions received by the undersigned before that date will be considered:—

Draft rules and schedules of rates of tolls.

1. Every vessel on entering the channel and before passing the gate at either end or even when entering the channel from a side khal between the gates shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, a vessel may be measured again by any person appointed by the District Board of Bakarganj on this behalf.

2. Vessels for the purpose of the determination of maundage shall be divided into two classes as below:—

Class I.—To include all vessels of the types of country boats, including saltees and hapors (fish cages), house boats, kosh boats, green boats, etc.

Class II.—To include steam boats, motor boats, flats and barges and other square-built vessels.

3. The maundage of every vessel, whether laden or empty, shall, for the purpose of Act V (B. C.) of 1864 and of these rules, be determined by the following measurements:—

CLASS I.

A. The product of one quarter the length of the vessel from stem to stern measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B. The measurement of the length is to be made in feet, rejecting inches, the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. **Saltees.**—The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

CLASS II.

For vessels of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one-half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds. In the case of steamers and motor boats the maundage determined as above shall be reduced by one-third as an allowance of engine space.

For vessels of class II which are furnished with reliable way bills, the gross maundage of cargo shown by the way bills or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which must be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the sarang, manjee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket must be kept on board the vessel and in possession of the person in charge of the vessel and must be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of Government, District Board, other local bodies or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the District Board of Bakarganj from time to time.

10. The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length and 5 feet in breadth shall be permitted to enter the canals.

12. The rates of toll shall be as follows:—

(1) On all vessels empty or laden, per hundred maunds—Twelve annas.

(2) On all vessels empty or laden, for 12½ maunds or less—One anna six pies.

(3) On rafts of bamboos, grass, timber, etc., not exceeding 50 feet in length and 5 feet in breadth—Six annas each raft.

Tolls will be levied at Dephulia, near Baniakati bridge.

13. For boats frequently using the canal, such as boats carrying passengers, grass or perishable articles monthly tickets will be issued at 10 times the ordinary toll.

14. Every vessel which has paid toll shall be allowed to remain in the canal for three days inclusive of the days of entry into and leaving the canal. A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month. Provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. Power to Local Government to terminate aid on account of fault

25. If the Local Government decides for reasons to be recorded in writing to terminate aid in respect of an industry on any of the following grounds, namely:—

(*i*) that any portion of the aid given has been misapplied, or

(*ii*) that there has been a breach by the owner of the industry of the provisions of this Act or of any rule made thereunder or of any condition of the grant, or

(*iii*) that the application on which the aid has been granted contained, or was accompanied by, any material statement by the owner which he knew to be false, or any intentional concealment by him of any material fact, which in the opinion of the Local Government it was his duty to disclose, or that any such false statement or concealment was intentionally made in any inquiry made under this Act by or with the connivance of the owner or in any return under this Act, or in reply to any requisition for information under this Act, or

(*iv*) that the industry is being managed in such a manner as to endanger the repayment of the value of State aid granted thereto repayable under this Act,

the Local Government may make an order that the aid be terminated and, notwithstanding anything contained elsewhere in this Act or in any other enactment, may proceed to recover from the owner as an arrear of land revenue—

(*a*) the whole amount of any loan outstanding, together with such interest as may be due thereon, or

(*b*) in cases where the aid is given otherwise than by loan, the money value of the grant as fixed at the time when it was made, together with interest at a rate not exceeding twelve and a half per cent. from the date of the grant till the date of realisation, and

(*c*) in the cases mentioned in clause (*a*) or clause (*b*) the cost of recovery, and, if the Local Government so directs, the cost of any inquiry made in connection therewith,

and such order shall be final.

Fees.

26. The Local Government may charge in respect of applications, inquiries, inspections and audit by whomsoever made under this Act, such fees, if any, as may be prescribed. Arrears of such fees shall be recoverable from the owner as a public demand.

Supervision of assisted industry.

27. During the continuance of State aid to an industry in any of the forms specified in clauses (*a*), (*b*), (*d*) and (*e*) of sub-section (*1*) of section 19 the Local Government may, by appointing directors or inspectors, or otherwise, take such steps as it deems advisable so to control the conduct of the industry as to safeguard the interests of the Local Government therein.

Recovery of sums due.

28. All sums payable under this Act shall, unless otherwise provided therein, be recoverable as if they were public demands.

The Bengal State Aid to Industries Bill, 1930.

(Clauses 29—31.)

Every person who acts on behalf of the Local Government or the Board under this Act (including every person who conducts an inquiry under this Act) shall be deemed to be a public servant within the meaning of section 21 of the Indian Penal Code, and no suit, prosecution or other legal proceeding shall lie against any such or any other person for anything which is in good faith done or intended to be done under this Act. Act XLV of 1860

Finality of decision of Local Government

30. The decision of the Local Government as to whether the conditions imposed by or under any of the provisions of this Act have been satisfied shall be final. [*Cf.* B & O. Act VI of 1928, s. 31.]

Power of Local Government to make rules

31. (*1*) The Local Government may, by notification, make rules for carrying out the purposes of this Act.

(*2*) In particular, and without prejudice to the generality of the foregoing power, such rules may provide for all or any of the following matters, namely:—

(*a*) the manner of election of the members of the Board referred to in clauses (*d*), (*e*), (*f*) and (*g*) of sub-section (*1*) of section 3;

(*b*) the payment of travelling and daily allowances and fees referred to in section 10 and the conditions of such payment;

(*c*) the conditions for fixing of the salaries referred to in sub-section (*1*) of section 18;

(*d*) the conditions of punishment and dismissal referred to in sub-section (*2*) of section 18;

(*h*) the conditions of the supply of machinery on the hire-purchase system under clause (*h*) of sub-section (*1*) of section 19;

(*q*) the fees referred to in section 26; and

(*r*) generally, to regulate the conduct of its duties, the management of its proceedings, and the preparation and submission to the Local Government of the minutes thereof by the Board.

STATEMENT OF OBJECTS AND REASONS.

The object of the Bill is to obtain statutory power to enable State aid to be given mainly for the purpose of encouraging cottage industries and industries on a small scale, in the shape of loans, guarantees, the provision of a hire-purchase system, etc. It is proposed to set up a Board of Industries composed entirely of non-officials with business or banking experience to advise Government on applications for such aid. Provision has been made in the Bill for the delegation of the powers of the Local Government to the Board of Industries.

The Bill is modelled on the Madras State Aid to Industries Act, 1923, and the Bihar and Orissa State Aid to Industries Act, 1923.

All moneys not immediately required for the purposes of the Fund shall from time to time be invested by the Trustees at their discretion in any of the following securities, that is to say, any of the rupee or sterling securities of the Government of India or any securities the interest on which is or shall be guaranteed by the Government of India or in the bonds, debentures or securities of or issued by any public, municipal or local body or authority in India or in deposit in any bank in Calcutta approved by the Corporation either by way of loans on short notice or fixed for a term with power for the Trustees at their discretion from time to time to vary or transpose such investments into or for others of any nature hereinbefore authorised.

13. All investments shall be made in the name of the "the Corporation of Calcutta Provident Fund Account" and such investments or securities belonging to the Fund may be sold, negotiated, transferred, mortgaged or otherwise dealt with under the signature of the Chief Executive Officer for the time being of the Corporation and another Trustee for the time being of the said Fund.

14. The Trustees shall, from time to time, upon the written requisition of the Manager, pay to him such sum or sums as may be required for the purposes of these rules and shall, if necessary, raise the money required for the same by sale of or by raising a loan on the whole or a sufficient portion of the securities held by them, as they may think fit.

15. Separate accounts shall be kept for each subscriber showing, (A) the amount of his compulsory subscription with the interest thereon, (B) his share of the Corporation contribution with the interest thereon and the share of the lapses and forfeitures added thereto, and (C) his voluntary subscription with the interest thereon.

The total amount at the credit of a subscriber on the date on which these rules come into force, excluding the amount on the voluntary account, should be divided into two equal parts, one being shown under (A) Compulsory subscription including interest and the other under (B) Corporation contribution including profits. The voluntary subscription and the share of interest thereon shall be kept entirely separate under (C) voluntary subscription including interest. The total amount of lapses and forfeitures shall be distributed equally amongst the compulsory subscribers on the 31st March and added to the head (B) Corporation contribution including profits.

At the end of each year on the 31st day of March, the total amount available for distribution amongst the subscriber (compulsory and voluntary) arising from the interest on securities and other investments and all other moneys if any, except the amount of lapses and forfeitures as aforesaid, that should properly be brought into account, shall be credited to the three separate accounts in proportion of

(*a*) the balance, if any, standing to the credit of each subscriber under "Compulsory subscription including interest" at the commencement of the year, plus half the amount of his compulsory subscription during the year.

(*b*) the balance, if any, standing to the credit of each subscriber under "Corporation contribution including profits" at the commencement of the year and

(*c*) one twelfth of the total of the monthly closing balances under the voluntary account.

16. For the purpose of adjustment of the account of each subscriber the value of the securities purchased prior to the 1st January 1915, shall be deemed to be the value thereof entered in the books of the Fund on the 31st December 1914, and the value of any securities purchased since that date shall be taken at the actual purchase price thereof, irrespective of the fluctuations in the market price thereof and in case of any sale or transfer of any securities or other dealing therewith during the year (at any profit or loss), the Manager shall after providing for the debts and ascertained liabilities paid or incurred, credit or debit, as the case may be, the account of each subscriber with his share of such profit or loss as is hereinbefore provided in rule 15.

17. A statement of account of each subscriber shall be made up to the 31st March of each

year, and each subscriber shall be required to certify in writing within a month upon such account that the amount therein shown, as standing to his credit, is correct, or in default shall be precluded from challenging its correctness.

18. Except as is by these rules expressly provided a subscriber or any person or persons acting on his behalf, in respect of his interest in the Fund, shall not be entitled to claim any payment of money to him or them.

Provided that any subscriber contributing voluntary subscription may withdraw the whole or part of the amount to his credit for and in respect of his voluntary subscription by written application to the Manager therefor and the Manager shall pay the same within a fortnight from the date of receiving such application.

Provided always that no subscriber shall be entitled to apply for such payment more than once in any one year unless his service in the Corporation ceases in the same year.

Provided also that such subscriber may pay back into the Fund the whole or any portion of the sum so withdrawn by twelve equal consecutive monthly instalments.

NOTE.—When a subscriber desires to repay a withdrawal under this rule, the amount withdrawn must be a multiple of Rs. 12.

19. The Corporation shall have a first and paramount claim upon the amount from time to time standing to the credit of each subscriber under the head "Corporation contribution including share of profits" for and in respect of any sum due by the subscriber to the Corporation and of all losses, damages, costs, expenses which the Corporation may at any time pay, sustain or be put to, by reason of any act of embezzlement by or default of or by such subscriber, and the amount of Corporation contribution including the profits thereon and the share of lapses and forfeitures added thereto shall be deemed and treated as a deposit made by him with the Corporation as security for his fidelity and be dealt with accordingly and in the event of any claim arising in favour of the Corporation against any subscriber, under these rules, the same shall, unless otherwise satisfied by the subscriber, be deducted, if the Corporation so direct, by the Manager for payment to the Corporation out of the amount standing to the credit of such subscriber on account of Corporation contribution including share of profits.

Provided that no claim of the Corporation shall lie against the subscribers' own contribution and the share of profits thereon or against the amount, if any, at his credit in the voluntary account.

20. The Corporation contribution and the interest thereon and the amount of lapses and forfeitures added thereto will in the following cases be forfeited to the Fund, viz., (*1*) when a subscriber is dismissed from service for (*a*) dishonesty, (*b*) neglect of duty involving loss to the Corporation (*c*) serious misconduct, and (*d*) conviction for a criminal offence involving moral turpitude, (*2*) when a subscriber not being an officer entitled under the conditions of his appointment to resign earlier voluntarily leaves the service within five years from the date of joining.

Provided that the Corporation may at their discretion in any special case order payment of the whole or any part of the amount ordinarily liable to forfeiture under this rule.

21. No subscriber shall, until he ceases altogether to be in the service of the Corporation, be entitled to the payment in the whole or any part of the Fund to his credit, save and except voluntary contribution payable to him under proviso to rule 18.

For the purposes of this rule a subscriber does not cease to be in the service of the Corporation as long as there is no break or interruption in his service, although during the continuance of such service he may hold different appointments under the Corporation for different periods or serve under different agreements for specified periods.

22. Every subscriber shall be permitted to nominate any person or persons to whom the whole or a part of the amount payable to him shall be paid in the event of his death. But if the nominee is a minor, the subscriber shall, at the time of nomination, also appoint a person of full age to whom, in the event of the subscriber dying before the minor nominee attains majority, the amount is to be paid on behalf of the minor nominee. Similarly when a nominee suffers under any other legal disability to give a valid discharge, the subscriber must appoint in the nomination paper some other person to receive payment and give a valid discharge on behalf of such nominee. No nomination in favour of a minor or of a person suffering under disability shall be valid without such appointment.

A nominee may or may not be a dependant of the subscriber.

If the person nominated be a dependant the amount payable to him under these rules shall vest and be payable to him on the death of the subscriber.

23. All nominations shall be made and submitted in duplicate in the form to be found at the end of these rules, signed by the subscriber and attested by two witnesses, and must be sent to and registered in the office of the Manager of the Fund, who will register the same and retain one copy for record and return the other to the subscriber. A nomination made and registered as aforesaid can only be modified or revoked by another nomination in writing similarly signed, attested, submitted and registered.

24. Notwithstanding any subsequent modified nomination, or cancellation of a previous nomination, payment made according to a former nomination which had been duly made and registered as aforesaid, if the subsequent nomination has not been received by the said Manager for registration, shall be a complete discharge and shall exonerate the Trustees of the Fund from all claims.

25. On the termination of the service of a subscriber the total sum at his credit in the account prepared in accordance with the provisions of rule 15, subject to the provision of rule 20 and of any deductions directed under rule 19 shall be payable to him.

NOTE.—In the event of the death of a subscriber after he leaves the service but before he has received payment under this rule the amount payable shall be paid in accordance with rule 26.

26. On the death of a subscriber whilst in the service of the Corporation, the total amount at his credit in the account made up in accordance with the provisions of rule 15 or the balance thereof after the deduction, if any directed under rule 19, will be disposed of in the manner following:—

(1) If the subscriber has left a duly signed and registered nomination disposing of the entire amount of his Provident Fund, then the shares of the nominees who are not dependants out of the entire sum payable will be paid to them with or without the production of probate, letters of administration or succession certificate according as the total amount payable on his account does or does not exceed Rs. 5,000 and the shares of the denpendants will be paid to them without the production of probate, letters of administration or succession certificate irrespective of the total amount payable.

CALCUTTA, *the 31st July 1930.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 29th July 1930.

Forecast of the Summer Til Crop of Bengal, 1930-31.

(NOTE.—On an average of the five years ending 1928-29, the area under til in Bengal has represented some 2·6 per cent. of the total area under til in British India.)

Character of the season.—The weather was favourable at the outset for field operations. Rainfall at the time of sowings, which commenced generally in the normal time, was insufficient in Rajshahi and in some West and East Bengal districts, with the result that a less area was sown this year in these districts; elsewhere the operation continued under favourable conditions. Good rainfall in May favoured the growth of the crop, but subsequently heavy showers at the time of maturity caused considerable damage, especially in the two important districts of Pabna and Mymensingh, which contain more than half the acreage of the province. The season, on the whole, has been a fair one for the crop.

Acreage.—The area sown this year is reported to be 99,300 acres as against 109,000 acres last year.

Outturn.—From the estimates furnished by the District Officers, the average outturn of the crop for the province works out at 73 per cent. of the normal this year as against 69 per cent. last year.

Taking the normal yield of 6 maunds per acre, the gross outturn of the crop for the province is estimated at about 16,000 tons this year as against 16,600 tons last year.

R. S. FINLOW,
Director of Agri., Bengal.

NOTIFICATION.

No. 10630A.—7th August 1930.—In pursuance of Rule IX of the Bengal Provincial Services Recruitment Rules* published in notification No. 7183A., dated the 22nd May 1930, the Government of Bengal are pleased to notify the following particulars and instructions regarding the direct appointments to be made in 1931 to the Bengal Civil Service (Executive), the Bengal Police Service, the Bengal Excise Service, the Bengal Junior Civil Service, and the Bengal Junior Excise Service:—

1. **Vacancies.**—The following vacancies will be filled by direct appointments:—

Bengal Civil Service (Executive)	...	...	6
Bengal Police Service	...	...	1
Bengal Excise Service	...	...	2
Bengal Junior Civil Service	...	...	21
Bengal Junior Excise Service	...	...	5

In addition to these appointments one appointment in the Upper Division of the Bengal Secretariat Clerical Service will be available to candidates who qualify for appointment to the abovenamed services but whose places in the lists are not sufficiently high to enable them to secure appointments.

Each candidate will be required to specify in his application the service or services for which he desires to compete, placing them in the order of his preference, and the choice thus indicated will be final. Appointments will be assigned to successful competitors with due consideration of their choice and the number of vacancies in the various services, but Government reserve the right to offer to a candidate an appointment to a service for which the candidate has not specified a desire to compete.

2. **Method of recruitment.**—The appointments will be made by competitive examinations in the manner prescribed in Part B of Schedule II of the Bengal Provincial Services Recruitment Rules.

3. **Qualifications.**—The indispensable qualifications of a candidate are—

(*i*) that he is a native of Bengal or has a permanent domicile within the Presidency of Bengal;

(*ii*) that he is a natural born subject of His Majesty, or of an Indian State in respect of whom the Governor General in Council has made a declaration under section 96A of the Government of India Act;

(*iii*) that he shall have attained the age of 22 and shall not have attained the age of 25 on the 1st October 1930;

(*iv*) that he is a graduate of a recognised University;

(*v*) that he is of good character; and

(*vi*) that he is of sound health, good physique, active habits and free from organic defect or bodily infirmity.

* Copies of these Rules (price annas six) are obtainable from the officer in charge, Book Depot, Bengal Secretariat, Calcutta.

Along with his application every candidate shall submit proof of his age as explained in the form of application and certificates, written not more than one year prior to the date of his application, from two responsible persons unconnected with his College or University, and not related to him, testifying to his private character and stating that he is a native of or has a permanent domicile within the Province of Bengal.

4. **Applications—Method of submission of fee, etc.**—(*i*) A person desiring to be admitted to the examination shall apply before the 15th November 1930 to the head of the college from which he passed his examination for the degree of Bachelor of Arts, Science, Commerce, etc. A candidate who passed the examination as a non-collegiate student shall send in his application to the Registrar, Calcutta University, together with a certificate of character signed by the Principal of his college if he was connected with one, and by the Magistrate of the district in which he is resident in other cases; candidates from the Dacca University shall apply to the Registrar, Dacca University. All other candidates (not included in the previously mentioned categories) shall apply to the Director of Public Instruction, Bengal:

Provided that in no case shall a candidate apply to more than one of these authorities, and that such application shall always be made through their Durbars by persons resident in a State in India.

(*ii*) Applications shall be made, in the form shown in Schedule I, copies of which may be obtained from the heads of colleges, the Registrars of the Calcutta and Dacca Universities, and the Director of Public Instruction.

(*iii*) No application will be taken into consideration by the receiving authority unless it is accompanied by non-judicial stamps of the value of Rs. 5 or a chalan showing payment into a Government treasury in Bengal of the sum of Rs. 5. This payment is obligatory whether such application is subsequently rejected or not. Applications stamped with postage stamps will not be accepted.

5. **Selection Committee.**—The Government of Bengal will appoint a Selection Committee to examine the applications of nominated candidates and their eligibility for admission to the examinations. This Committee will be composed of officials and non-officials in equal numbers and will be presided over by a high officer of Government.

6. **Nomination.**—The heads of colleges, the Registrars of the Calcutta and Dacca Universities, and the Director of Public Instruction, Bengal, shall forward to the Selection Committee before the 30th November 1930, the applications of candidates nominated in accordance with the allotment of nominations shown in Schedule II and shall certify the moral character of each candidate so nominated. The application of non-collegiate students nominated by the Registrar of the Calcutta University should be supported by the character certificates mentioned in paragraph 3 above. In making these nominations, due regard should be paid to the desirability of different classes and communities being represented in the public service.

7. **Selection certificates.**—In order to make the appraisement of individual merits of candidates possible, the Selection Committee shall

issue certificates of selection to such of the nominated candidates, not exceeding 200 in all, as it considers qualified to appear at the examination. The selection or rejection of a candidate by the Selection Committee shall be final, and no candidate shall be admitted to the examination unless he holds such a certificate:

Provided that in making their choice the Selection Committee shall give all possible consideration to the cases of candidates of the minority communities and the backward classes and shall call for further nominations from the heads of colleges or Commissioners of Divisions if the number of selected Muhammadan candidates does not reach 45 per cent. of the total number selected.

8. **Particulars of candidates.**—The Selection Committee may require such further proof or particulars from the candidates as it may consider necessary, and may make enquiries regarding their character and domicile.

9. **Examination fee and time-table.**—Every candidate to whom a certificate of selection has been issued will, within a week from the date of its receipt, deposit in the nearest treasury in Bengal a sum of Rs. 50 as examination fee and forward the receipt for the same to the Secretary to the Selection Committee. No part of the fee will be returnable to a candidate. Delay in this respect may render a candidate's name liable to removal from the list of examinees. On complying with this requirement, the candidates will receive from the Secretary a time-table for the examination.

10. **Canvassing.**—Any attempt on the part of a candidate to enlist support for his application through persons of influence or officials of Government will disqualify him for appointment. Spontaneous recommendations from persons interested in the candidates, or otherwise known to them, will be disregarded.

11. **Ineligibility of Government servants.**—Unless specially exempted by Government by general or special order, no person holding a substantive appointment in Government service is eligible to appear at the competitive examinations. Whenever such exemption is granted, the candidate will be subject to selection by the Selection Committee, as if he were duly nominated under paragraph 6 above.

12. **Syllabus of examination and marks.**—The examinations will be held in the subjects and according to the syllabus shown in Schedule III which also indicates the numerical value to be attached to each paper at the examination.

As the possession of a knowledge of a provincial vernacular is an essential condition of appointment, candidates, whose ordinary spoken and written language is not Bengali, must take up translation from English into one of the provincial vernaculars named below:—

(*i*) Bengali, (*iii*) Urdu,

(*ii*) Hindi, (*iv*) Nepali,

and *vice versa* in the compulsory paper. Successful candidates, however, who have offered any language other than Bengali in that

paper and are appointed to a service for which there is a Departmental Examination, will be required to pass completely the Departmental Examinations in Bengali within two years of the date of their appointment to the service.

13. **Medical Examination.**—As soon as the results of the examinations have been declared, a proportion of the candidates who have qualified will be called upon to appear before a Medical Board for a certificate of their fitness for Government Service in form A of Schedule IV of the Bengal Provincial Services Recruitment Rules. An order to appear before the Medical Board must not however be understood to mean that the candidate, if found fit, will necessarily receive an appointment in one of the Provincial Services mentioned in paragraph 1 or in the Bengal Secretariat Clerical Service as the number of candidates who will be summoned for medical examination will be slightly in excess of the total number of vacancies, and the question of his appointment will depend upon the results of the medical examination taken as a whole. The regulations governing the physical examination of candidates are set forth in Schedule IV of the Bengal Provincial Services Recruitment Rules and intending candidates are advised before they apply for admission to the examination to satisfy themselves that they are likely to qualify as physically fit under those regulations, for recent experience has shown that a considerable number of the candidates at the competitive examinations are subsequently rejected by the Medical Board as unfit.

W. S HOPKYNS,
Chief Secy. to the Govt. of Bengal.

The age of a candidate as recorded on entering his University is regarded as correct unless there is a proof to the contrary. If a candidate claims that his age is other than as so recorded he must submit with this application the evidence on which he bases his claim. In such a case the Selection Committee will require among other evidence a satisfactory explanation of the circumstances in which a wrong age was recorded at the time of entry into the University. They will also require a statement of any attempts made by the candidate to have the University record amended and of the results of such attempts. The statement of age must tally with the statement of age made in any previous application of this nature and will be deemed absolutely final. CALCUTTA, THE 5TH AUGUST 1930.

RESOLUTION—No. 3301EDN.

Minister-in-charge: The Hon'ble Mr. K. Nazim-ud-Din, C.I.E.

Read—

(1) The report of the committee appointed to consider the question of the development of the Government Commercial Institute, Calcutta.

(2) Letter No. 927, dated the 2nd September 1927, from the Director of Public Instruction, Bengal.

(3) Letter No. 1039, dated the 14th October 1927, from the Director of Public Instruction, Bengal.

2. The Bengal Retrenchment Committee, which was appointed by the Government of Bengal in 1922, to enquire into the possibilities of effecting economies in the administration of the province, recommended that the Commercial Institute should be placed in the hands of a board of management consisting of (*i*) two representatives of the Bengal Chamber of Commerce, (*ii*) two representatives of the Calcutta Corporation, (*iii*) one representative of the Calcutta Trades Association and (*iv*)

one representative of the Bengal National Chamber of Commerce. They also proposed that Government should give the institution a grant of Rs. 15,000 a year for three years and that the position should be reconsidered at the end of that period.

3. Government considered it necessary that the question should be reviewed by a mixed committee consisting largely of representatives of the commercial organizations of Bengal, with whom should be associated a few educationists and others interested in the subject. Accordingly by resolution No. 2108-Edn., dated the 4th August 1925, they appointed a committee consisting of four officials and seven businessmen, with the Director of Public Instruction as Chairman and the officiating Principal of the Commercial Institute as Secretary, to advise Government regarding (*i*) the courses of instruction, (*ii*) the development of the institute, and (*iii*) the conversion of the institute to an aided institute.

4. The committee submitted their report in September 1926. In regard to the proposal to divest Government of responsibility for maintaining the institute, the committee were of opinion that commercial education is a suitable subject for assistance from public funds, that it constitutes a concern of the Government just as much as special instruction in such subjects as engineering and weaving, and that an outside body was not likely to relieve Government of the duty of providing commercial education. They were thus against the proposal that the commercial institute should become an aided institution, and recommended that suitable accommodation should be provided for the institute in some central position in Calcutta and that a sum of Rs. 66,000 per annum should be provided for the maintenance of the institute for the first three years. In regard to courses of instruction, the committee found that the Commercial Institute was planned on sound lines and had a suitable and well designed syllabus.

5. Government have accepted the recommendation of the committee that the Commercial Institute should be continued and developed as a Government institution. They have also accepted the recommendation of the committee in regard to accommodation for the institute and have located it in a suitable building in Hastings Street, Calcutta, which has been hired at a rental of Rs. 1,500 per mensem. Administrative approval of Government has also been accorded to the scheme of reorganisation of the institute on the lines recommended by the committee, subject to certain modifications. The scheme will involve an additional recurring expenditure of Rs. 21,005 per annum and an additional non-recurring expenditure of Rs. 7,500, and effect to this scheme will be given after provision in the budget, and vote by the Legislative Council.

Order.—Ordered that the resolution be published in the *Calcutta Gazette*.

CALCUTTA, THE 7TH AUGUST 1930.

RESOLUTION—No. 729C.

Minister-in-charge: The Hon'ble Khan Bahadur Maulvi K. G. M. Faroqui.

On the 15th March 1930, a conference on the Howrah Bridge problem was held at Government House, Calcutta. The conference was attended by the Chairman and two representatives of the Calcutta Port Trust, the Chairman and two representatives of the Calcutta Improvement Trust, and the Chief Executive Officer and two representatives of the Calcutta Corporation, with their respective technical advisers. His Excellency the Governor of Bengal presided, and the Hon'ble Members and Hon'ble Ministers of the Government of Bengal were present. In the discussion which ensued it was made clear that the prospect of raising additional funds for the construction of a single span cantilever bridge was remote, and that the further pursuit of this more ambitious project must therefore be dropped. The main feature of the discussion was the strong support which was given to the proposal to investigate with greater precision the possibility of constructing a pier bridge. Government are disposed to agree that the grounds on which this type of bridge has been supported or opposed have not yet been examined with sufficient strictness, and that throughout this controversy there has been some tendency to adopt opinions which undoubtedly must carry great weight without any serious attempt having been made to sift or appraise the facts on which they are based. Government are therefore of opinion that before a floating bridge, which must in so many respects prove unsatisfactory, is approved as the only permissible design, a final attempt should be made to define and assess the objections urged against the sinking of piers. The funds available under the provisions of the Howrah Bridge Act are almost sufficient to meet the cost of a floating bridge of adequate size, and there is competent engineering opinion for the statement that a pier bridge could be constructed at about the same, if not indeed at less, cost. Government are of opinion that at the present stage the arguments adduced against the sinking of piers can be most adequately examined by a small committee of laymen assisted by two expert assessors who will enable the committee to state and weigh with proper precision the evidence given by the experts whose views have so widely differed.

They have, therefore, decided to appoint a committee constituted as follows:—

Mr. S. W. Goode, C.I.E., I.C.S., President,

Mr. S. N. Mallick, C.I.E.,

Mr. W. H. Thompson, M.L.C.,

to investigate and report on the advisability of constructing a pier bridge between Calcutta and Howrah. The committee will be assisted by Mr. T. A. Curry, Superintending Engineer, Irrigation Department, Bengal, and Mr. R. S. O'Brien, River Surveyor, Port Commissioners, Calcutta, in the capacity of assessors.

The committee's terms of reference are as follows:—

(*i*) Are the objections to piers in the river, viz., the danger of scour and siltation and the check to tidal flow so well founded and serious as to constitute a risk to the future of the Port of Calcutta which ought not to be taken, or is the risk, if any, attendant on the construction of piers in the river such as could be controlled by engineering skill, if adequate funds be provided?

(ii) If the answer to the first part of (i) is in the negative, should the project for a pier bridge be taken up forthwith or should experimental piers be sunk and experiments with models be undertaken before a final decision is made?

(iii) If experiments are considered desirable, is the committee of opinion that the stability of the present bridge is such as to justify the delay which experiments must involve? If so—

(a) under what conditions should the experiments be made;

(b) what will be their approximate cost;

(c) how far are the *data* they may supply likely to prove conclusive;

(d) over what period approximately must they extend; and

(e) what agency is proposed for collecting, examining and judging the *data* which they may furnish?

2. The committee will sit in Calcutta on such dates as may be arranged by the President, and it is hoped that they will be able to submit their report by the middle of November 1930. Any persons interested, who desire to place their views before the committee or to give evidence, should communicate with the President not later than 10th September 1930.

ORDER—Ordered that a copy of this resolution be forwarded to the gentlemen named below—

Mr. S. W. Goode, C.I.E., I.C.S.

Mr. S. N. Mallick, C.I.E.

Mr. W. H. Thompson, M.L.C.

Mr. T. A. Curry.

Mr. R. S. O'Brien.

Ordered also that the resolution be published in the *Calcutta Gazette*.

NOTIFICATIONS.

[Third publication.]

No. 12I.—22nd July 1930.—The following draft of rules and schedule of rates of tolls, which, in exercise of the power conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make for the Roypasa-Bheduria khal, commonly called the Roypasa khal, joining Kalijira river at the north, Karapur Bagadi in the west and Nathullabad khal leading to Barisal at Dephulia and Haripasa in the east, in the district of Bakarganj, is hereby published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 12th September 1930, and any objections or suggestions received by the undersigned before that date will be considered:—

Draft rules and schedules of rates of tolls.

1. Every vessel on entering the channel and before passing the gate at either end or even when entering the channel from a side khal between the gates shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, a vessel may be measured again by any person appointed by the District Board of Bakarganj on this behalf.

2. Vessels for the purpose of the determination of maundage shall be divided into two classes as below:—

Class I.—To include all vessels of the types of country boats, including saltees and hapors (fish cages), house boats, kosh boats, green boats, etc.

Class II.—To include steam boats, motor boats, flats and barges and other square-built vessels.

3. The maundage of every vessel, whether laden or empty, shall, for the purpose of Act V (B. C.) of 1864 and of these rules, be determined by the following measurements:—

CLASS I.

A. The product of one quarter the length of the vessel from stem to stern measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B. The measurement of the length is to be made in feet, rejecting inches; the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. **Saltees.**—The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

CLASS II.

For vessels of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one-half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds. In the case of steamers and motor boats the maundage determined as above shall be reduced by one-third as an allowance of engine space.

For vessels of class II which are furnished with reliable way bills, the gross maundage of cargo shown by the way bills or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which must be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the sarang, manjee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket must be kept on board the vessel and in possession of the person in charge of the vessel and must be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of Government, District Board, other local bodies or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the District Board of Bakarganj from time to time.

10. The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length and 5 feet in breadth shall be permitted to enter the canals.

12. The rates of toll shall be as follows:—

(1) On all vessels empty or laden, per hundred maunds—Twelve annas.

(2) On all vessels empty or laden, for 12½ maunds or less—One anna six pies.

(3) On rafts of bamboos, grass, timber, etc., not exceeding 50 feet in length and 5 feet in breadth—Six annas each raft.

Tolls will be levied at Dephulia, near Baniakati bridge.

13. For boats frequently using the canal, such as boats carrying passengers, grass or perishable articles monthly tickets will be issued at 10 times the ordinary toll.

14. Every vessel which has paid toll shall be allowed to remain in the canal for three

days inclusive of the days of entry into and leaving the canal. A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month. Provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. No vessel carrying exclusively police officers or servants, soldiers and officers of the British Army, post mail runners, officers of the Irrigation Department on duty, officers and servants of the toll office for the canal referred to in these rules while on duty, or the vessels of such other persons as may be exempted by a resolution of the District Board of Bakarganj, shall be liable for toll in the canal.

16. Any matter relating to the mode of collection of tolls and other relevant points, not provided for in these rules, shall be decided by the District Board of Bakarganj at a meeting, and shall be subject to the approval of the local Government.

RESOLUTION.

In exercise of the powers conferred by Section 97 (6) of the Government of India Act, the Secretary of State, with the concurrence of the majority of votes at a meeting of the Council of India held this 1st day of July 1930, hereby makes the following rules for the regulation of admission to the Indian Civil Service through open competitive examinations to be held in India, namely:—

Rules for Competitive Examinations for the Indian Civil Service to be held in India.

(1) A competitive examination for admission to the Indian Civil Service shall be held in India at such time and place as the Governor-General in Council may direct.

(2) The maximum number of candidates to be admitted to the examination may in the discretion of the Governor-General in Council be limited to such number not being less than 200 as the Governor-General in Council may decide. If a limit is imposed and the number of candidates exceeds that limit the Public Service Commission shall select from among the applicants those who shall be admitted to the examination and shall have regard in so doing to the suitability of the applicants for the Indian Civil Service and to the adequate representation of the various provinces of India.

(3) (*i*) A candidate shall apply to be admitted to the examination before such date and in such manner and in such form as the Governor-General in Council may prescribe. The application shall be made to the proper authority of the area in which his parents reside at the time of the application or of an area in which they have previously resided for a period of not less than three years or in which he has himself resided, otherwise than as a student at a university only, for a like period.

(*ii*) The proper authority shall be, for a Governor's province the Chief Secretary, for Coorg, the North-West Frontier Province, Delhi or Ajmer-Merwara, the Chief Commissioner and for a State in India the Political Officer or Agent who shall be addressed through the Durbar.

(*iii*) No candidate shall make more than one application in respect of any one examination.

(*b*) a Ruler or a subject of a State in India in respect of whom the Governor General in Council has made a declaration under Section 96A of the Government of India Act:

Provided that in the case of a male British subject the requirements of this rule may be waived by the Secretary of State in Council if he is satisfied that their observance would occasion exceptional hardship and the candidate is so closely connected by ancestry and upbringing with His Majesty's dominions as to justify special treatment.

(5) A candidate must have attained the age of 21 and must not have attained the age of 23 on the first day of January in the year in which the examination is held.

(6) A candidate must be in good mental and bodily health and free from any physical defect likely to interfere with the efficient performance of the duties of a member of the Indian Civil Service. (9) No candidate shall be admitted to the examination unless he holds a certificate of admission from the Public Service Commission.

(10) No recommendations except those invited in the form of application will be taken into consideration. Any attempt on the part of a candidate to obtain support for his application by other means, may disqualify him for admission.

(19) Candidates who offer Astronomy (subject 56) must satisfy the Public Service Commission that they have been trained in an Astronomical observatory for a period of at least three months or have had other experience of the use of the Astronomical instruments.

(20) From the marks assigned to candidates in each subject, such deduction will be made as the Public Service Commission may consider necessary in order to secure that no credit is allowed for merely superficial knowledge.

(21) If a candidate's handwriting is not easily legible, a deduction, which may be of considerable amount, will be made on this account from the total marks otherwise accruing to him.

(22) Credit will be given for good English, including orderly, effective and exact expression combined with due economy of words, in all the subjects of the examination and not only in subjects 1 and 2 which are specially devoted to the English language.

(23) A list of the competitors shall be made out in order of their proficiency as disclosed by the aggregate marks finally awarded to each competitor, and in that order, so many competitors, up to the determined number of appointments, *as are found by the Public Service Commission to be qualified by examination, shall be designated to be selected candidates for the Indian Civil Service, provided that the Governor General of India in Council is satisfied that they are duly qualified in other respects. Should any selected candidate become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled or not. In the former case the candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a selected candidate.

(24) Selected candidates will be on probation for two years in the United Kingdom.

Special Rule applicable to Burman Candidates.

(25) (*i*) The term "Burman candidate" means a candidate domiciled in Burma both at the date of his birth and at the date when he applies to be admitted to the examination.

(*ii*) A branch of the competitive examination confined to Burman candidates shall be held in Burma and no Burman candidate shall compete elsewhere in India.

* Elsewhere than in Burma the number of appointments which will be announced for competition will not represent the total number of vacancies to be filled in India, as certain vacancies will be reserved in accordance with the pledge given by the Hon'ble Home Member in the Council of State on the 2nd March 1925 and will be filled, if necessary, by nomination for the purpose of adjusting communal inequalities which may arise from the results of the competitive examinations in London and India.

In the case of Burma the number of appointments announced for competition in 1931 will represent the total number of vacancies to be filled.

(*iii*) Burman candidates shall apply to be admitted to the examination to the Chief Secretary to the Government of Burma before such date and in such form as the Governor General in Council shall prescribe and rules 3 (*i*) and 3 (*ii*) shall not apply to Burman candidates.

(*iv*) Burman candidates shall not be included in the list made out under rule 23 but a separate list of Burman candidates shall be made out with reference to the determined number of appointments available in Burma to which the provisions of rule 23 shall apply.

Sub-section 2. A candidate who is not required by sub-section (1) to offer a vernacular named in column 2 will offer the vernacular named in column 3 against his province if any such vernacular is named unless he is already familiar with the vernacular there named or with a closely allied one.

Sub-section 3. A candidate who is not required under the preceding sub-sections to offer a vernacular will offer history instead. A one-year probationer will offer British history; a two-year probationer will offer British history for the Intermediate Examination and European history for the Final Examination.

Any question as to the interpretation and application of this regulation will be decided by the Civil Service Commissioners.

(8) The ordinary session of the Final Examination for the testing of riding will take place in advance of the rest of the Final Examination, and a special session will when necessary be held at a later date for the benefit of any candidate who may have failed at the ordinary session.

Candidates who at the ordinary session satisfy the Commissioners that they are sufficiently at home in the saddle for the efficient performance of all duties required of members of the Indian Civil Service will be awarded marks ranging between 101 and 200 according to the degree of proficiency displayed.

Candidates who at the ordinary session fall short of this adequate proficiency but show such minimum proficiency as is evidence that with a moderate amount of practice they can attain full proficiency, will receive marks ranging between 1 and 100; they will be allowed to proceed to India and will on their arrival there be subjected to such further tests in riding as may be prescribed by their Local Government.*

If a candidate is absent from or fails to show minimum proficiency at the ordinary session he will be given a further opportunity of examination at a special session. If he then attains adequate proficiency he will not be subjected to further tests in India. If he attains minimum proficiency he will be allowed to proceed to India under the same condition as if he had attained minimum proficiency at the ordinary session. No credit in marks will be given for any performance at a special session.

Probationers may also be examined in riding at such time or times as the Commissioners may appoint during the course of the probationary period.

(9) Such deductions as the Civil Service Commissioners may consider necessary will be made from the marks assigned to candidates at the Intermediate and Final Examinations in order to secure that no credit is allowed for merely superficial knowledge.

(10) The Civil Service Commissioners will prepare lists of the candidates in order of merit; the order for the one-year probationers being based on the sum of the marks obtained by the candidates at the Open Competitive and Final Examinations, the order for the two-year probationers being based on the sum of the marks obtained by the candidates at the Intermediate and Final Examinations.

(11) The selected candidates whose performance in the compulsory subjects† of the Final Examination is such as to satisfy the Civil Service Commissioners, and who have also satisfied the Commissioners of their eligibility in respect of nationality, age, health, character and conduct during the period of probation, shall be certified by the Commissioners to be entitled to be appointed to the Indian Civil Service, provided that they shall comply with the regulations in force, at the time, for that Service.

(12) If any candidate is prevented by sickness or any other adequate cause from attending the Final Examination, the Commissioners may, with the concurrence of the Secretary of State for India in Council, allow him to appear at the Final Examination to be held in the following year, or at a special examination. A selected candidate absent for such adequate cause from the Intermediate Examination may, under similar conditions, be allowed to appear at the Intermediate Examination a year later or a special examination, or may be excused the Intermediate Examination and allowed to appear for the Final Examination in regular course.

Any candidate who at the Intermediate Examination shall appear to have wilfully neglected his studies, or to be physically incapacitated for pursuing the prescribed course of training, will be liable to have his name removed from the list of selected candidates.

(13) A selected candidate who wishes to pursue, in addition to the course prescribed above, an extra course of study, such as reading for a degree or for the examination for admission to the Bar, must first obtain the permission of the High Commissioner for India. If permission is accorded, it will be subject to review at any time.

ANNOUNCEMENTS

made by the Civil Service Commissioners with the authority of the Secretary of State for India in Council:—

(i) Selected candidates will be allotted to the various provinces upon a consideration of all the circumstances, including their own wishes; but the requirements of the Public Service will rank before every other consideration.

(ii) A selected candidate who wishes to pursue an extra course of study, in addition to the prescribed probationary course, must submit an application, stating precisely the extra course of study which it is desired to pursue, to the Secretary to the High Commissioner for India, Education Department, 42, Grosvenor Gardens, London, S. W. 1, through the appropriate authority at the University or College at which he is pursuing his probationary course. The appropriate authorities are:—

Oxford—The Indian Civil Service Delegacy.

Cambridge—The Board of Indian Civil Service Studies.

London—The Director of the School of Oriental Studies.

Trinity College, Dublin—The Registrar of the Indian and Home Civil Service School.

(iii) An allowance of £300 a year, or, in the case of Selected Candidates possessing an Indian domicile, an allowance of £350 a year will be given to any candidate who passes his probation at one of the Universities or other Institutions that have been approved for the purpose by the Secretary of State for India in Council.

---

* Such candidates will receive no increase to their initial pay until they have passed the further tests in question to the satisfaction of their Local Government.

†The compulsory subjects include riding, and a candidate who fails at the end of the period of probation to satisfy the Civil Service Commissioners that he has reached the minimum standard of proficiency in riding will be liable to have his name removed from the list of selected candidates.

In the case of Selected Candidates on probation for one year, the allowance will be payable in five equal instalments, the first after the agreement prescribed in Announcement (iv) has been executed, the second, third and fourth on December 24th, March 25th and June 25th, respectively, and the fifth after signature of Covenant on appointment to the Service.

In the case of Selected Candidates on probation for two years, the allowance will be payable in nine approximately equal instalments, the first on September 29th or as soon thereafter as the agreement has been executed, the second on December 24th, the third to the eighth at quarterly intervals from that date, and the ninth after signature of Covenant on appointment to the Service.

Each selected candidate should intimate to the Secretary to the High Commissioner for India, Education Department, the address to which it is desired that the first instalment should be sent.

The payment of the various instalments of the allowance except the first instalment and the final instalment, and, in the case of the two-year probationers, the instalment payable at the end of the first year of probation, will be conditional on the receipt by the High Commissioner for India, through the authorities of the approved institution, of a certificate that the candidate had fulfilled up to date the requirements of the authorities and shown satisfactory progress.

If an Indian Government Scholar becomes a selected candidate for the Indian Civil Service, his scholarship stipend shall cease to be paid with effect from the 1st October of the year in which he becomes a selected candidate.

The whole probation must ordinarily be passed at the same Institution. Migration will not be permitted except for special reasons approved by the Secretary of State.

N. B.—The Secretary of State for India gives notice that the amount of the allowances will be reconsidered in 1931, with a view to a possible reduction with effect from the first instalment payable to candidates selected in that year.

(iv) Each Candidate will be required before receiving the first instalment of his allowance to execute an agreement binding himself and one surety jointly and severally to refund all moneys he may have received from the Secretary of State for India in the event of:—

(1) his failure to pass the Final Examination within the time prescribed by the Regulations, and to satisfy the Civil Service Commissioners of his fitness for admission to the Indian Civil Service, or

(2) his subsequent failure to execute the usual covenant, and to proceed to India, as and when he shall be directed by the Secretary of State for India.

(v) All candidates obtaining Certificates will be also required to enter into covenants, by which, amongst other things, they will bind themselves to make such payments as under the rules and regulations for the time being in force they may be required to make for the pensions of their families. The stamps payable on these covenants amount to £1.

(vi) A First Class passage to India will be engaged for Selected Candidates with a view to their proceeding to India after they have signed their covenants.

If a selected candidate elects to travel overland from London to Marseilles, he may apply to the High Commissioner for India for payment of the overland allowance as fixed from time to time. No baggage expenses or other allowance will be admissible.

Selected candidates who desire to make their own arrangements for proceeding to India must first satisfy the High Commissioner for India that they have good reasons for wishing to do so and that the arrangements which they propose to make are suitable. They will then, on production to the High Commissioner for India of evidence that they have engaged a passage, be granted an allowance not exceeding £65 or the actual cost of the passage by the route selected, whichever is less.

(vii) Candidates appointed to the Indian Civil Service after undergoing one year's probation will be senior to those appointed in the same year after undergoing two years' probation. The seniority of candidates of each class *inter se* will be determined by the order in which their names appear on the lists referred to in clause (10) of the regulations.

(viii) A candidate who fails to satisfy the Civil Service Commissioners at the Final Examination held in any year will be definitely rejected unless the Secretary of State in Council shall, after reference to the Civil Service Commissioners, allow him to sit for re-examination in the subject or subjects in which he failed. In general, a candidate who is allowed re-examination will be required to forfeit the whole or part of the final instalment of his allowance, but if it appears to the Secretary of State in Council, after reference to the Civil Service Commissioners, that his failure to pass the examination was due to circumstances wholly exceptional and beyond his control, such forfeit of his allowance will not be required.

(ix) "Overseas pay" will not be admissible to Indian members of the Indian Civil Service selected at Open Competitive Examinations held in London in 1925 and subsequent years.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 6th August 1930.

First Forecast of the Cotton Crops of Bengal, 1930-31.

(NOTE.—On an average of the five years ending 1928-29, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops, early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore. As the late crop has not yet been sown, this forecast deals only with the early crop.

Character of the Season.—Owing to uneven distribution of rainfall the weather has not been favourable in Mymensingh and the Tripura State. Elsewhere the conditions are reported to have been generally favourable. Present state of the crop is fair, except in Mymensingh, where it is reported to be poor on account of heavy rains.

Area sown.—The area sown is reported to be 76,812 acres this year as against 76,257 acres reported in the corresponding forecast of last year.

CALCUTTA, THE 2ND AUGUST 1930.

Receipts.—The estimates of receipts for the year is placed at Rs. 3,94,478 against the budget and revised estimates of Rs. 4,19,478 and Rs. 3,94,478, respectively, for the preceding year. The estimates of receipts from the East Indian Railway for the year is placed at Rs. 3,25,000 against the budget and revised estimates of Rs. 3,50,000 and Rs. 3,25,000, respectively, for the preceding year.

The Bengal Nagpur Railway have again contributed Rs. 26,000 towards the upkeep of the bridge during the year 1930-31.

Expenditure.—The estimate of total ordinary expenditure for the year is Rs. 5,14,279 against the budget and revised estimates of Rs. 4,82,429 and Rs. 4,44,879, respectively, for the preceding year. The estimated expenditure for the year compared with the revised estimate of 1929-30 shows an increase of Rs. 69,400, which is mainly due to increased provision for the maintenance and repairs of the bridge and for interest on overdraft. There is no provision for special expenditure during the year.

Resolved that the budget estimates for 1930-31 be approved under section 21 of the Howrah Bridge Act, 1871.

3. In the absence of the Chairman at any meeting of the Board the members present (being a quorum) shall choose one of their number to preside.

4. All questions shall be decided by a majority of votes. The Chairman of the meeting shall have a second or casting vote.

5. Minutes of the proceedings of all meetings of the Board shall be kept by the Secretary, and shall be signed by the Chairman.

7. The members of the Burial Board shall be monthly visitors of the cemeteries in rotation, and shall record in a book any remarks on the state of the same. The Superintendent shall send a notice on the first day of each month to the member whose turn it is to visit, reminding him of the fact, and, on the last day of each month, the remark book for any entries. The visitor's remarks shall be read at the monthly meetings of the Board.

III.—Graves.

1. The area to be used for graves in every cemetery shall be divided into grave-spaces, which shall be serially numbered so that the portion of each grave-space may be readily ascertained.

2. A corresponding map or maps of the burial ground shall always be kept at some convenient place, and shall be open to the inspection of all persons. Every grave-space shall be delineated on such map and its number inscribed thereon. A book shall also be kept with such map or maps in which all interments made in the aforesaid grave-spaces and their dates shall be entered.

3. No grave-space shall exceed 10 feet by 6 feet in superficial dimensions, and every grave shall be constructed so as to leave a space of at least 1 foot on all sides between it and the boundary of the grave-space.

6. (*1*) No second interment shall be made in any masonry grave until after the expiry of a period of at least one year from the date of the first interment therein.

(2) No subsequent interment, after the second interment, shall be made in any masonry grave until after the expiry at least five years from the date of the last preceding interment therein:

Provided that with the sanction of the Chairman for such special reasons as he may think fit, and subject to such conditions and restrictions as the Health Officer may prescribe, a third or subsequent interment may be made in such grave before the expiry of such period.

7. The land used for a non-masonry grave, if not purchased, may be re-used after a period of eight years, provided that no soil shall be disturbed which, when the grave is re-opened, shall be found to be offensive.

11. In the case of a non-masonry grave no right shall be acquired to the exclusive use of the ground, unless the land is purchased, in which case the purchaser shall have the same rights and be subject to the same obligations in respect of interments as the owner of a masonry grave. But, after the lapse of one year, a non-masonry grave may be converted into a masonry grave on a written application to the Board, and on payment of the difference between the fee already paid and the fee leviable under the rules. The right of constructing masonry graves or converting non-masonry graves into masonry ones is exclusively reserved to the Board.

12. The Commissioner of Police shall have power to order the exhumation of corpses when such exhumation is considered necessary by him for police purposes, and he shall forthwith give information to the Board of any such order for disinterment. Otherwise no disinterment shall be made without a special order of the Chairman, who, before giving such sanction, shall obtain the concurrent permission of the Archdeacon of Calcutta in cases arising within a Church of England cemetery, or portion of a cemetery, and of the Archbishop of Calcutta in cases arising within a Roman Catholic cemetery, or portion of a cemetery. In regard to the general portion of a cemetery, the Chairman of the Burial Board shall obtain, if possible, the sanction of the representative of the denomination concerned. A list of those to whom application is to be made for such sanction shall be kept in the Secretary's office, and revised quarterly after communication with the persons named therein.

In urgent cases the Superintendent may give leave for exhumation within twelve hours of the burial, notifying the fact at once to the Chairman.

13. The ashes of cremated bodies, if interred in an urn or other suitable receptacle, may be exhumed at any time with the sanction of the Chairman. Nothing in rules 3, 4, 6 and 7 shall apply to the interment of the ashes of cremated bodies.

1. All applications for the erection of monuments, or alterations or additions to the same, shall be made to the Secretary of the Board, and shall show the proposed design and inscription and cost of the same.

2. (1) Monuments may be erected on masonry graves only:

Provided that in the case of non-masonry graves, a monument may be erected on any such grave if the grave-space has been purchased and the necessary conversion of the grave from a non-masonry one into a masonry one has been carried out by the Board.

(2) For a light head-stone or cross over a non-masonry grave the grave-space for which has been duly purchased, an adequate masonry foundation not exceeding 3 feet by 2 feet may be allowed without such conversion; but the whole structure must not stand higher than 3 feet from the ground level.

3. The superficial area of a monument erected upon a grave shall not, without the special sanction of the Chairman, exceed 8 feet by 4 feet:

Provided that the use of masonry, or of wood or other perishable materials for monuments shall not be allowed. This shall not apply to crosses, which may be made of wood.

4. The Board will undertake to keep in repair any monument for the repair of which a sum of money, or an annual payment deemed sufficient by the Board, shall be deposited or made.

5. If any monument which the Board has not undertaken to keep in repair falls into a ruinous condition, the Board may call upon the friends of the deceased to repair it, and if they neglect to do so, or if they cannot be traced, the Board may deal with such monument at its discretion.

NOTE.—In the above rules the term monuments includes head-stones, slabs, and all other memorials of the dead and grave-enclosures.

V.—Endowments of Graves and Monuments.

All fees must be paid in advance.

(*ii*) **Permanent endowment.**—Only masonry graves with monuments may be permanently endowed.

The endowment fee shall be fixed in each case by the Executive Engineer, 2nd Calcutta Division, who is the expert adviser of the Board.

2. The endowment is intended to cover the expense of ordinary annual maintenance, re-lettering, and repairs, but not the risk of accidents due to floods, earthquakes, or other extraordinary causes.

IRRIGATION DEPARTMENT.

NOTIFICATIONS.

No. 141.—11th August 1930.—In exercise of the powers conferred on him by sections 78 and 99 of Act III (B. C.) of 1876, the Governor in Council is pleased to pass, with effect from the 1st September 1930, the following rules and to fix the undermentioned rates to be charged for water supplied from the Bakreswar Canal in the Birbhum district.

A draft of these rules was published in the *Calcutta Gazette* of the 3rd, 10th, 17th and 24th July 1930 as notification No. 5T.-I., dated the 2nd June 1930:—

Leases for a term of years.

1. The country served by the canals shall be mapped out into blocks of convenient size in accordance with the features of the ground, natural or artificial. So far as may be practicable, the blocks shall be separated by drainage lines. This shall be done by the Subdivisional Canal Officer under the guidance and control of the Divisional Canal Officer.

2. Each block determined as above shall be numbered and recorded with its gross and irrigable areas in registers to be maintained by the Subdivisional Canal Officer. The blocks shall also be marked on maps to be maintained by the same officer.

3. Leases for not more than seven years may be granted for the whole irrigable area of a block or for definite parts of a block under the following conditions:—

I.—Ordinarily the whole irrigable area of any village so far as situated within the block must be included in the lease. If the lands of a village within the block are divisible into two or more distinct parts which can be irrigated independently, a separate lease may be granted for each part.

II.—All leases within one block shall be so granted that they may expire on the same date.

III.—No lease shall be granted when the supply of water must of necessity be delivered across an unleased area, unless a channel exists, which in the opinion of the Subdivisional Canal Officer, will deliver water without waste across the unleased area.

4. The Superintending Engineer shall fix from time to time the gross area for which and the limits of the canal within which, leases for a term of years may be granted.

5. Maps of all villages in which lands have been brought under lease for a term of years, or in which there is any probability of such leases being taken, shall be kept in the Subdivisional Canal Office. These maps to be at scale 32″=1 mile when such are available, and elsewhere at scale 16″=1 mile.

6. The preliminary application for a lease for a term of years, either new or renewal, may be of an informal nature, but it must be in writing. It may be presented and shall be received either at the Subdivisional or Sectional Canal Office; in the latter case the Sectional Officer shall forward it immediately to the Subdivisional Canal Officer. The Subdivisional Canal Officer as soon as he has, by personal enquiry or by an enquiry made by the Sectional Officer, satisfied himself that the land in question constitutes a definite block or a definite part of a block, and that it can be irrigated, shall at once inform the Divisional Canal Officer giving such particulars as that officer may direct, and shall ask his formal approval to the lease being proceeded with. The lands to be brought under lease shall be indicated on a copy of the map alluded to in rule 5.

7. On receipt of such approval the Subdivisional Canal Officer shall depute an amin to prepare the *khasra* or detailed assessment paper. This shall be done on the ground with the aid of the revenue survey map and *khasra*. Should the survey map and *khasra* not be available, the amin shall make a sketch map, and shall measure the areas of the holdings with a chain or measuring-rod.

8. When the amin has completed the *khasra*, the Subdivisional Canal Officer shall forward it to the Divisional Canal Officer for approval.

9. As soon as the *khasra* has been approved by the Divisional Canal Officer, he shall return it to the Subdivisional Canal Officer endorsed with his signature in token of approval.

The Subdivisional Canal Officer shall then prepare a *khatian* or abstract of the *khasra*, and shall have the form of application, given as Appendix No. I to these rules, filled up and signed or marked by each of the applicants, in the presence of two witnesses.

When the application has been completely signed, the Subdivisional Canal Officer shall send it to the Divisional Canal Officer, by whom the permit or formal approval of the lease shall be signed and issued in the form given as Appendix No. III to these rules. The permit shall be made over to the representative of the cultivators by the Subdivisional Canal Officer by means of his Sectional Officer.

10. Should it happen that the cultivators of the block proposed for lease are not unanimous, and that certain of them decline to sign the application, the Subdivisional Canal Officer shall report the matter to the Divisional Canal Officer and shall hold a local enquiry, recording the statements of the persons who decline to sign and recording his personal opinion on the reasons given. He shall then send a report to the Divisional Canal Officer, who shall decide whether the lease may be accepted excluding the fields in the occupation of the persons who decline to sign, or whether the lease shall be declined. The Divisional Canal Officer is authorised to grant a lease when not less than 95 per cent. of the net irrigable area of the block has been signed for. In particular cases should it be desirable to grant a lease even though an area larger than 5 per cent. of the block has not been signed for, this may be done on the written order of the Superintending Engineer. The reasons for granting the lease shall be fully recorded.

Covering Leases.

11. Applicants for a lease for a term of years who may require water before the lease has been concluded can obtain a supply on tendering an application for a covering lease in the form given as Appendix No. II to these rules. This application must be signed in the presence of the tahsildar or of some other responsible officer nominated for the purpose

by the Subdivisional Canal Officer. The signatures should be those of the leading cultivators in the block in question and they should represent holders of not less than 75 per cent. of the irrigable land within the block.

As soon as the Subdivisional Canal Officer receives the application duly signed, he shall issue a permit in the form given as Appendix No. IV to these rules, and shall at once supply water.

Season Leases.

12. Applications for water to irrigate spring rice or other crops between the 16th November and 15th June, may be presented at the Subdivisional Canal Office or to the Sectional Officer. They must be in the form given as Appendix No. V to these rules.

In the applications the areas for which water is required must be specified but the rate will be charged on those areas for which water is actually used as determined by measurement.

The permit in the form given as Appendix No. VI to these rules will be granted by the Subdivisional Canal Officer if he is able to supply the water.

Supply of water.

13. The Divisional Canal Officer shall control the supply of water throughout the Division in his charge.

14. No water shall be supplied to any lands except such as have been brought under a lease for a term of years or for the season, or to such as are provided for by a covering lease.

15. Under the forms of irrigation lease in use, no specific supply of water is promised: but the undertaking is to give such a supply to each lessee as may be necessary for the lands leased. The supply shall be given, as may be required for the proper cultivation of the crops under irrigation, according to the exigencies of the season.

16. The Divisional Canal Officer is empowered to give the required supply by rotation should this be advisable for the efficient working of the canals in his charge. In such a case, he is required to give the lessees written notice informing them of the periods when they will be supplied with water.

Collection of water-rates.

17. The rates due for water supplied shall be collected by the Subdivisional Canal Officer through his staff of tahsildars and peons. All *khatians* or demand statements shall be signed by the Subdivisional Canal Officer after scrutiny in his office.

18. At the time of preparation of the *khatian* in the Subdivisional Canal Officer's office, each person assessed shall be furnished with an extract from the assessment paper, showing the particulars of the charge against him. This extract shall be furnished in such form as may from time to time be approved for the purpose.

19. Each person on paying the sum due from him shall be given a receipt in the form prescribed for the purpose.

20. In regard to any proceedings taken under the Public Demands Recovery Act the Divisional Canal Officer is subject to the control of the Collector of the district.

Unauthorised use of water and waste of water.

21. Should it be necessary to take action under the provisions of sections 79 and 80 of the Act, proceedings shall be instituted only under the direct and special order of the Divisional Canal Officer. The primary record of the facts regarding the unauthorised use or the waste of water shall be made by the Subdivisional Canal Officer and his subordinates. The parties whom it is proposed to assess shall be informed in writing, and shall be called on to show cause why they should not be assessed. The record of their statements shall be made by the Divisional or by the Subdivisional Canal Officer. The Divisional Canal Officer shall consider the facts and statements recorded, and shall in deciding the case give his reasons for or against assessment, both as regards the facts and as regards the law; and he shall determine the rate to be charged, subject to the provision in the schedule of rates attached to these rules.

22. Should the Divisional Canal Officer decide on making an assessment, he shall have the assessment papers prepared by the Subdivisional Canal Officer and his staff. Each person assessed shall be furnished with a statement of the charge against him, and an abstract of the demand or *khatian* shall be sent to the Subdivisional Canal Officer, who shall proceed to recover the sums assessed. The period of one month within which an appeal may be presented to the Collector under section 91 of the Act shall count from the date on which the statement of the charge is furnished to the person assessed, which date shall be endorsed on it.

23. No proceedings shall be instituted if the unauthorized use or the waste of water have occurred through the act or neglect of a Canal Officer or subordinate employed on the canal. During the irrigation of autumn rice, the passing on of surplus water from leased to unleased fields is not an unauthorized use of water.

Complaints and Applications.

24. All complaints or applications with respect to the supply of water, to defective drainage, and generally with respect to the administration of the canal, shall be received on presentation at either Divisional or Subdivisional Canal Offices.

Complaints and applications received by a Divisional Canal Officer may be transferred to his Subdivisional Canal Officers for disposal at his discretion.

25. Complaints or applications with respect to corrections of the assessment, with respect to the actions of the amins in assessing, and with respect to the actions of the tahsildars and other staff employed in collections, shall be received at the office of the Divisional Canal Officer.

26. Receipts in the prescribed form shall be given at all offices for complaints or applications presented. The receipt of all complaints and applications shall be recorded in registers to be kept for that purpose.

27. The officer receiving the complaint or application shall either make a personal enquiry into the matter or he shall nominate in writing some responsible person to hold the enquiry.

28. The orders passed on all complaints or applications shall be in writing and a copy of every order shall be furnished to the complainant or applicant.

The copy of order may be sent by post (registered), if this is convenient.

The period within which an appeal may be presented under section 91 of the Act shall be reckoned from the date on which the copy of the order is received by the person.

29. When an appeal to the Collector is from the order of a Subdivisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record on them such remarks as he may think desirable, provided that he does not thereby detain the proceedings.

In all cases in which an appeal against an assessment is preferred to the Collector, that officer may, if he thinks fit, direct that the collection of water-rates be suspended till the appeal is heard.

30. The Divisional Canal Officer is empowered to revise the proceedings of his Subdivisional Canal Officers, and the Superintending Engineer is empowered to call for and to revise the proceedings of all officers under his control.

Remissions and Alterations of Demand.

31. Whenever the crop on land entitled to a supply of water suffers material injury from an insufficient supply of water, or from any interruption in the supply of water, remission of the rate due on such crop shall be given in whole or in part by the Divisional Canal Officer, provided that the person claiming remission shall have applied for such not less than 15 days before the reaping of the crop.

32. On the occasion of lands being brought under a lease for a term of years, the Divisional Canal Officer is empowered to remit the rates for the first season on those fields which from the nature of the cultivation then obtaining, or from other causes, have not, in that season, derived any benefit from the supply of canal water.

33. Should the crop on lands under lease for a term of years suffer material injury from excess of water due to deficient drainage the Divisional Canal Officer may grant remission of the rates due on such lands in whole or in part, provided that the person asking for remission shall have applied at least 15 days before the reaping of the crop.

34. Revisions of the assessment required in consequence of land under lease being left uncultivated or of land being appropriated for purposes other than cultivation shall be made under the orders of the Divisional Canal Officer.

35. Revisions of the assessment required in consequence of incorrect entries of the names of occupants of lands under lease or of incorrect entries of areas or amounts in the assessment papers, or required by changes in the occupation of lands shall be made under the orders of the Divisional Canal Officer.

36. Remissions of water-rates on account of injury to the crops caused by inundation, by blight, by storms or by any extraordinary cause will only be allowed under the special orders of the Local Government.

Irrecoverable Demands.

37. The Superintending Engineer is empowered to sanction the write-off of those demands which are reported, after due enquiry by the Divisional Canal Officer, as irrecoverable owing to the poverty of the defaulter or of his successors in case of his death, or owing to the defaulter having absconded.

Cultivators' Representatives.

38. Whenever the preliminary application for a lease for a term of years has been approved by the Divisional Canal Officer, the Subdivisional Canal Officer shall select as representative of the cultivators a suitable person or persons who shall generally be acceptable to the cultivators and who shall each have a direct interest in the land for which the lease is executed.

39. The person or persons so selected shall be required to give assistance to the Canal Officers in respect of the following matters:—

(*i*) In the preparation of applications for leases.

(*ii*) In the measurement of irrigated lands.

(*iii*) In recording the names of the occupiers of the holdings.

(*iv*) In receiving demand statements and distributing to the cultivator the individual notices of assessment.

(*v*) In attending, when required, at enquiries into complaints.

(*vi*) In reporting to the Subdivisional Canal Officer any changes in the occupancy of lands under lease.

(*vii*) In assisting the tahsildar in collecting rates.

40. For such assistance the cultivators' representative or representatives shall be entitled to free irrigation of the lands in his or in their own occupation which may lie within the boundaries of the leased area, subject to a total limit of 3 per cent. of the area assessed. The Divisional Canal Officer may disallow in whole or in part this free irrigation, and may recover the rates which would otherwise have been payable in whole or in part if the assistance specified in rule 39 has not been efficiently rendered. The reasons for such disallowance shall be recorded in writing.

41. The Subdivisional Canal Officer shall maintain in his office a register containing a record of the names of all representatives and of the areas of free irrigation allowed to each.

42. Applicants for season leases shall be required to nominate one of their number who must have a substantial interest in the land to be irrigated as their representative. The representative so nominated shall perform the same duties as stated in rule 39 and shall receive remuneration on the same scale as in rule 40.

Power to decline or cancel leases.

43. Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted or used for the irrigation of lands not under lease, it shall be competent for the Superintending Engineer to direct that the lease shall be cancelled with

effect from the 16th of June next following. The order to cancel a lease shall be passed before the 1st of April of the year in which it is to take effect.

44. The Superintending Engineer may give directions to the Divisional Canal Officer to decline applications for irrigation leases of lands in villages where there has been persistent difficulty in realizing the water-rates, until all arrears have been paid.

He may further suspend, or altogether cancel, any lease for a term of years, if on the 1st June of any year water-rates to the extent of half the demand for one year are in arrears. Previous notice of intention to put this rule in force shall be given not later than the 15th April preceding.

Miscellaneous.

45. Tanks may be supplied with canal water without charge, when water can be made available without injury to the cultivation dependent on a canal, under the following conditions:—

(*i*) That the water is to be exclusively used for domestic purposes, or for watering cattle.

(*ii*) That a channel exists through which water can pass without waste.

(*iii*) That the water shall only be supplied on the written order of the Subdivisional Canal Officer.

(*iv*) That any new outlet or sluice which may be required to allow of the supply being given shall be provided at the cost of the persons who ask for the water.

(*v*) That the supply of water may be stopped at any time if it is found that it is being misused.

46. Except when a public right-of-way exists, no person shall, without the permission expressed in writing of the Divisional or Subdivisional Canal Officer, pass himself, or cause any animal or vehicle to pass, on or across any of the works, banks or channels of a canal, or drainage work which is part of the canal system except by means of such bridges, fords and ferries as may have been provided for the purpose.

Any person who, after due warning, commits a breach of this rule, may be proceeded against under section 93, clause (*9*), of the Irrigation Act.

47. The use of any part of the banks or berms of any canal, drainage work which is part of the canal system, or flood embankment which is subject to the provisions of the Irrigation Act, as a place for relieving the calls of nature, is prohibited. Any person who after due warning commits a breach of this rule may be proceeded against under section 93, clause (*9*), of the Irrigation Act.

No. 121.—22nd July 1930.—The following draft of rules and schedule of rates of tolls, which, in exercise of the power conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make for the Roypasa-Bheduria khal, commonly called the Roypasa khal, joining Kalijira river at the north, Karapur Bagadi in the west and Nathullabad khal leading to Barisal at Dephulia and Haripasa in the east, in the district of Bakarganj, is hereby published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 12th September 1930, and any objections or suggestions received by the undersigned before that date will be considered:—

Draft rules and schedules of rates of tolls.

1. Every vessel on entering the channel and before passing the gate at either end or even when entering the channel from a side khal between the gates shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, a vessel may be measured again by any person appointed by the District Board of Bakarganj on this behalf.

2. Vessels for the purpose of the determination of maundage shall be divided into two classes as below:—

Class I.—To include all vessels of the types of country boats, including saltees and hapors (fish cages), house boats, kosh boats, green boats, etc.

Class II.—To include steam boats, motor boats, flats and barges and other square-built vessels.

3. The maundage of every vessel, whether laden or empty, shall, for the purpose of Act V (B. C.) of 1864 and of these rules, be determined by the following measurements:—

CLASS I.

A. The product of one quarter the length of the vessel from stem to stern measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B. The measurement of the length is to be made in feet, rejecting inches; the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. **Saltees.**—The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

CLASS II.

For vessels of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one-half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds. In the case of steamers and motor boats the maundage determined as above shall be reduced by one-third as an allowance of engine space.

For vessels of class II which are furnished with reliable way bills, the gross maundage of cargo shown by the way bills or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which must be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the sarang, manjee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket must be kept on board the vessel and in possession of the person in charge of the vessel and must be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of Government, District Board, other local bodies or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the District Board of Bakarganj from time to time.

10. The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length and 5 feet in breadth shall be permitted to enter the canals.

12. The rates of toll shall be as follows:—

(1) On all vessels empty or laden, per hundred maunds—Twelve annas.

(2) On all vessels empty or laden, for 12½ maunds or less—One anna six pies.

(3) On rafts of bamboos, grass, timber, etc., not exceeding 50 feet in length and 5 feet in breadth—Six annas each raft.

Tolls will be levied at Dephulia, near Baniakati bridge.

13. For boats frequently using the canal, such as boats carrying passengers, grass or perishable articles monthly tickets will be issued at 10 times the ordinary toll.

14. Every vessel which has paid toll shall be allowed to remain in the canal for three days inclusive of the days of entry into and leaving the canal. A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month. Provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. No vessel carrying exclusively police officers or servants, soldiers and officers of the British Army, post mail runners, officers of the Irrigation Department on duty, officers and servants of the toll office for the canal referred to in these rules while on duty, or the vessels of such other persons as may be exempted by a resolution of the District Board of Bakarganj, shall be liable for toll in the canal.

16. Any matter relating to the mode of collection of tolls and other relevant points, not provided for in these rules, shall be decided by the District Board of Bakarganj at a meeting, and shall be subject to the approval of the local Government.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 12th August 1930.

First Forecast of the Sugarcane Crop of Bengal, 1930-31.

(NOTE.—On an average of the five years ending 1928-29 the area under sugarcane in Bengal has represented some 7·1 per cent. of the total area under sugarcane in British India.)

Character of the season.—At the time of planting the weather was favourable, except in parts of West and North Bengal, where scanty rainfall, somewhat, hampered the operation. Good rainfall in May generally favoured the development of the young plants; but subsequently heavy rainfall caused damage to the growth of the crop, especially in the district of Mymensingh. The present outlook, so far, is reported to be fair, on the whole.

Area planted.—The total area planted with sugarcane for the Province is reported to be 195,500 acres this year, against 197,900 and 197,600 acres reported in the corresponding and final forecasts of last year.

R. S FINLOW,
Director of Agriculture, Bengal.

Classification—Undertrials.

II. (1) Undertrial prisoners shall be divided into two Divisions, viz., Division I *undertrial* and Division II *undertrial*. Division I *undertrial* shall include all prisoners who by social status, education and habit of life have been accustomed to a superior mode of living, while Division II *undertrial* shall include prisoners whose status and

mode of living are not superior to the ordinary and who are consequently not eligible for Division 1. The classification of undertrials will be done by the trying courts subject to the approval of the District Magistrate, or in the case of Calcutta, the Chief Presidency Magistrate, and the previous standard of living will be the sole criterion.

(2) Division I *undertrials* shall be kept separate from Division II *undertrials*.

(3) Undertrial prisoners, both male and female, shall be strictly segregated from convicted prisoners, and arrangements shall be made, where male undertrial prisoners under the age of 21 are confined, for separating them altogether from other prisoners, and for separating those of them who have arrived at the age of puberty from those who have not.

III. Every unconvicted criminal prisoner who is inadequately clad or is unable to obtain clothing from outside, shall be provided with bedding and suitable clothing which shall not be prison clothing, by the Superintendent of the jail.

IV. Division I *undertrial* prisoners shall be given the diets prescribed for Divisions I and II convicts, and Division II *undertrials* the diets prescribed for Division III convicts.

V. The following are the rules for the treatment of prisoners in Divisions I and II:—

SECTION I.

Division I prisoners.

1. **Classification.**—Convicted prisoners will be admitted to Division I in the manner, and on the grounds, indicated in Rule 625 A.

2. **Accommodation.**—Prisoners in Division I shall whenever possible be allotted cells, but except when imposed as a jail punishment, their imprisonment shall in no case involve anything in the nature of separate confinement.

3. **Furniture and Equipment.**—The cells allotted to Division I prisoners shall contain as their normal equipment, a chair and a table; a light for use at night until 10 p.m., aluminium feeding utensils, an iron cot, a thin mattress, two pillows, two sheets, four pillow cases, one or two blankets as may be required, a mosquito-net, and a small hand mirror and comb. Each prisoner in this Division shall also be given a tooth brush, if required, and in addition may provide, at his own expense, such other furniture, bedding, utensils, and hair oil, etc., as the Superintendent may approve as consistent with his ordinary habits and the accommodation of the jail.

4. **Travel in custody.**—When it is necessary for prisoners in Division I to travel in custody they shall be provided with intermediate class accommodation, unless they are accompanied by a Sergeant of Police, when they shall travel second class. If prisoners in this Division desire to travel by a higher class they shall be allowed to do so, provided they themselves pay all additional expenses. If the journey involves a night in the train prisoners shall be allowed to take with them their bedding and personal kit. In the case of prisoners who are considered to be dangerous a reserved compartment may be engaged. The subsistence allowance for Division I prisoners shall be Re. 1-8 per diem.

5. **Clothing.**—Each prisoner may wear his own clothing, provided that it is sufficient, fit for use and not objectionable; additional clothing may, with the approval of the Superintendent, be obtained from time to time at the expense of the prisoner. This concession does not cover the wearing of political symbols. If the prisoner desires to have clothing at Government expense, he shall be provided with the clothing and equipment prescribed for Division II convicts in Rule 1121. Soap shall be provided to enable the prisoners to wash their persons and clothes, but if they are not accustomed to wash their own clothes, the Superintendent will make arrangements for the regular washing of clothes without cost to the prisoners.

6. **Visitors.**—A special Board of Visitors shall be appointed by Government for each jail containing Division I prisoners consisting of the District Magistrate (or in the case of Calcutta the Commissioner of Police) and two non-official visitors specially appointed by Government. Other non-official visitors will not be permitted to inspect Division I prisoners or the wards or cells in which they are kept.

7. **Writing materials.**—As a privilege the use of exercise books and pencils, or pen and ink, will be allowed, in addition to the books, magazines, and papers provided for in Rule 24 below. The exercise books should be ordinary school exercise books and the pages must be numbered; they should be periodically inspected to see that no pages are missing. The pages must not be used for writing letters.

8. **Cropping of hair.**—Division I prisoners are exempted from the operation of rule 660, subject to the provision that if the medical officer deems it necessary to clip the hair or shave the head of any prisoner, this shall be done on his written order entered in the prisoner's history ticket.

9. **Diet.**—Prisoners in Division I shall receive the diet prescribed in Rule 1057, but may also obtain at their own expense under the usual restrictions as to examination and at the discretion of the Superintendent, extra provisions of a simple character, excepting alcohol or spirituous liquors of any kind which will only be supplied under the orders of the medical officer. A reasonable supply of cigarettes and tobacco may also be allowed at prisoners' expense. The Superintendent should regard the scale prescribed in Rule 1057 as a guide and vary the diet as much as possible within the sanctioned scale.

SECTION II.

Division II prisoners.

10. **Classification.**—Convicted prisoners will be admitted to Division II in the manner, and on the grounds, indicated in Rule 625A.

11. **Accommodation.**—Prisoners in Division II shall be given cellular accommodation, if available, under the same conditions as prisoners in Division I, but otherwise association within the class at the discretion of the Superintendent.

12. **Furniture.**—Prisoners in Division II shall be provided with a thin mattress, one pillow, 2 bed sheets, 2 pillow cases, and a mosquito-net in addition to ordinary jail bedding. They shall also be given one chair, a small table, or shelf, and a light in their cells or wards until 10 p.m.

13. **Travel in custody.**—When it is necessary for prisoners in Division II to travel in custody, they shall be provided with intermediate class accommodation, unless they are accompanied by a sergeant of Police, when they shall travel second class. If the journey involves a night in the train prisoners shall be allowed to take with them their bedding and personal kit. In the case of prisoners who are considered to be dangerous a reserved compartment may be engaged. The subsistence allowance of Division II prisoners shall be Re. 1 per diem.

14. **Clothing.**—(1) Prisoners in Division II shall be furnished with the clothing and equipment prescribed in Rule 1121.

(2) Prisoners in Division II employed as convict overseers or warders shall be provided with suits of plain cotton drill instead of dosuti cloth. Those employed as convict warders shall also wear a blue cotton pagri on the helmet, a blue fringe on the pagri or a blue badge $2'' \times 2''$ on the right side of the cap.

(3) Prisoners in Division II of the A and B classes shall wear distinguishing badges size $2'' \times 2''$ on the right breast—green for "A" class and red for "B" class.

15. **Cleaning of cells, etc.**—Prisoners in Division II shall keep their cells or wards, utensils, clothing, and bedding clean and neatly arranged, and shall be allowed soap for washing their persons and clothes.

16. **Cropping of hair.**—Prisoners in Division II shall, subject to the provisions of Rule 660, have their hair cropped and their beards, whiskers and moustaches shaved.

17. **Diet.**—Prisoners in Division II shall receive the diet prescribed in Rule 1057. The Superintendent of the Jail should regard the scale prescribed as a guide, and vary the diet as much as possible within the sanctioned scale.

SECTION III.

General.

18. **Jails and accommodation.**—(1) Prisoners in Divisions I and II shall ordinarily be confined in the Alipore Central Jail, the Suri Jail and the Dum Dum special jail, but may also be imprisoned in any of the following jails or in such other jails as Government may, by a notification in the Gazette, from time to time, declare to be a receiving jail for prisoners of these classes:—Presidency, Alipore, Dacca, Midnapore, Rajshahi, Darjeeling, Chittagong, Howrah, Berhampore and Asansol. Female prisoners in Divisions I and II shall usually be transferred to and detained in the Presidency Jail.

(2) When a prisoner is committed to a jail not declared to be a receiving jail under clause (1) above and is admitted to Division I or II, the question of his transfer shall be taken up without delay (vide Rule 835), but if he wishes to appeal he may be detained for 2 or 3 days to admit of his making arrangements with his legal advisers and friends. He shall not however be detained until the result of his appeal is known.

(3) Prisoners in Divisions I and II shall be kept in separate wards from those occupied by convicts in Division III, and prisoners sentenced to simple imprisonment should be kept apart from those sentenced to rigorous imprisonment, and short term prisoners from those sentenced to long terms.

19. **Tasks.**—The Superintendent of the Jail shall see that the tasks allotted to prisoners in Divisions I and II are assigned after due consideration on medical grounds and with careful regard to the capacity, character, previous mode of life, and antecedents of the prisoners.

20. **Articles supplied to prisoners.**—No article shall be passed for the use of a prisoner unless it has been noted in his ticket, and passed by the Superintendent.

21. **Separate cooking.**—The diet of prisoners in Divisions I and II shall be cooked separately from that of prisoners in Division III.

22. **Interviews.**—A prisoner in Division I or II shall not be permitted to hold any interview during the period of his sentence, except in accordance with the following rules:—

(1) With the approval of the Superintendent a prisoner may be allowed to see a visitor once a fortnight in the case of a Division I prisoner, or once a month in the case of a Division II prisoner, for the purpose of discussing family or domestic affairs.

(2) Such interviews shall be conducted in the presence of the jailer; and the discussion of political questions will not be allowed.

(3) No one who has taken a prominent part in any political agitation in which the prisoner was concerned, or whose object is suspected to be to obtain an opportunity of publishing accounts of grievances in the press will be allowed to interview a prisoner.

(4) If matters discussed at interviews or the substance of letters received from prisoners is published, the Superintendent shall report the matter to Government who will then decide if the privilege of interviews and communications shall be withdrawn or not in the case of the particular prisoner concerned.

23. **Letters and Communications.**—No letters or communications from or to prisoners in Division I or II shall be permitted, but well-conducted prisoners may be allowed to write and receive one letter to or from a near relation not more frequently than once a fortnight in the case of a Division I prisoner, or once a month in the case of a Division II prisoner, under the same conditions as those applicable to interviews. On urgent occasions, e.g., a death or serious illness in the family, this rule may be relaxed at the discretion of the Superintendent. The subject matter of all letters must be limited to private matters and there must be no reference to jail administration and discipline, to other prisoners or to politics. Such letters will be subject to the censorship of the Superintendent, who may, if he has any doubts regarding any letters, forward them to the Criminal Investigation Department for scrutiny. Similarly, that Department may call for the letters of any prisoner in Division I or II for examination.

24. **Books and Newspapers.**—(1) Prisoners in Divisions I and II may be allowed to read books or periodicals from the Jail Library, and may also be allowed to read books and magazines from outside subject to the approval of the Jail Superintendent, a larger allowance being made for Division I prisoners. If the Superintendent has any doubt as to the propriety of any book or magazine, he may refer the question to the District Magistrate or in the case of the Alipore Central and Presidency Jails, to the Chief Secretary. In special circumstances and with the previous approval of Government daily newspapers may be allowed to prisoners in Division I. Periodical news may be published in English or Bengali in the form of a jail newspaper at the expense of Government and supplied to literate prisoners in both Divisions I and II. If no jail newspaper is published or it is not possible to undertake its production, prisoners in Divisions I and II shall be supplied with a few copies of a weekly newspaper from a list of newspapers to be approved by Government and subject to censorship when necessary by the Jail Superintendent as regards the matter contained in particular issues published.

(2) Every Christian prisoner in Division I or II shall be supplied with a Bible and Prayer Book of the denomination to which he belongs, and every prisoner of other religions shall be permitted to obtain and keep with him such religious books as he may desire.

25. **Exercise.**—All prisoners shall take such exercise daily in the open air as the medical officer considers necessary and under such regulations as the Superintendent shall prescribe.

26. **Opening of barracks.**—The barracks and cells shall, subject to Rule 1180, be unlocked at dawn throughout the year. Twenty minutes before the opening of the barracks the rising bell or gong shall be sounded, and the watchmen shall then rouse the prisoners. Every prisoner shall fold up his bedding neatly and shall remain quietly by his bed for the purpose of being counted before being taken out of the ward. The convict officers will ascertain if any prisoner is sick or wishes to see the medical subordinate.

27. **Latrine arrangements.**—(*a*) Separate latrine accommodation shall, if possible, be allotted to prisoners in Divisions I and II. Prisoners may, however, provide a chamber and a commode at their own expense.

(*b*) After the ward has been opened, prisoners shall be allowed to go to the latrine in batches according to the accommodation in the latrine. Sick prisoners shall be seen by the medical subordinate in the ward.

(*c*) Every prisoner shall be allowed to remain at least five minutes in the latrine and longer if necessary. Each latrine parade ought not to occupy more than half an hour; every latrine must therefore contain compartments in the proportion of 1 to 6 of the number of prisoners to use it, and the washing place contiguous to each latrine shall have one compartment to every four latrine seats.

28. **Bathing and washing arrangements.**—(*a*) Separate bathing places shall be provided for prisoners in Divisions I and II. After the latrine parade, the prisoners shall go to the bathing places where prisoners in Division II shall wash their hands and faces, and prisoners in Division I shall take their baths. The time allowed to Division I prisoners for bathing shall be such as to allow every prisoner ten minutes for bathing; if necessary, the prisoners will go in batches.

(*b*) After washing or bathing, the early morning meal shall be distributed. At this time the Jailer shall arrange any alterations of the gangs that may be necessary, noting any change of work he may order in the prisoners' history tickets, or causing such entries to be made under his initials, and having the alterations entered in the gang books. (See Rule 775 regarding allotment of tasks.)

(*c*) On completion of the early morning meal the prisoners shall be allowed to wash their hands, after which the rolls shall be called, and the prisoners shall go to their working places.

29. **Orderly behaviour.**—Prisoners in Divisions I and II shall at all times behave in an orderly way, but shall not be required to sit in files at meals nor salute officers and visitors, nor in the case of Division I prisoners to move in files. They shall, however, stand at attention

in the presence of the Superintendent, the Jailer, the Deputy or Assistant Jailer and the medical officer or a visitor, but are not required to display the palms.

30. **Disposal of kit.**—Prisoners shall not be required to carry their kit with them. At working time the kit shall be left in the ward or cells in charge of a convict officer.

31. **Midday meal and washing arrangements, etc.**—Prisoners shall be given their meals in sheds or other suitable shelter. When the bell for the midday parade rings, the prisoners shall go to the feeding sheds. They shall then go to the bathing places as provided in Rule 28 (*a*) provided that prisoners in both Divisions shall now be allowed to bathe. After bathing they shall return to the feeding sheds, and the meal shall be distributed under the superintendence of a convict officer. They shall wash their own feeding utensils, but the Superintendent can, at his own discretion, allow the employment of an ordinary prisoner for this purpose in the case of Division I prisoners. Prisoners in Divisions I and II cannot however be allowed to use other prisoners as their personal servants. Complaints about food shall be reported at once to the Jailer as provided in rule 650.

After the meal prisoners shall be allowed to go to the latrine as provided in Rule 27 (*c*). They shall then return to their ward or cells.

32. **Resumption and cessation of work.**—Prisoners will resume work in the afternoon on the sound of a bell or gong and cease work when the gong is again sound in the evening and go through the same procedure as in the morning, except that bathing in the evening should not be insisted on except washing of hands, feet and face.

33. **Night latrine arrangements.**—A night latrine shall be provided for each ward, and shall be screened off for purposes of decency. Prisoners shall use the night latrine for defæcation only when actually necessary, and, as a rule, it should only be used in cases of sickness. Any prisoner who uses the latrine at night shall be reported by the watchmen and dealt with as ordered in Rule 649. If he is found to be sick, he shall immediately be placed under medical observation apart from other patients.

Each cell is provided with two baskets, but these should not ordinarily be used except for the purpose of urination. If otherwise used the fact should be brought to the notice of the medical officer.

34. **Complaints.**—Parades will be held on Monday morning to hear complaints, but this does not preclude any prisoner from interviewing the Superintendent at other times with legitimate complaints.

35. **Silence during work.**—Silence shall be maintained during work except when any enquiry or instructions relating to work are necessary. All loud talking, singing or quarrelling is prohibited, but out of working hours prisoners shall be permitted to converse quietly. Between lock-up and 10 p.m. prisoners may also read aloud from books provided from the jail library.

36. **Misconduct.**—Any act of misconduct on the part of a prisoner in Division I or II shall render him liable to the forfeiture of any or all of the concessions allowed by these rules for such period as the Superintendent may deem proper, in addition to any other punishment to which he may be liable under the Jail Code.

37. **Clothing, etc., on release.**—(1) Prisoners in Divisions I and II shall be subject to the provisions of Rules 589 and 590 but in lieu of the cloth shall be supplied either with a shirt, dhuti and cap or pagri, or a coat, pair of trousers and hat, according to choice, and the subsistence allowance shall be Re. 1-8 per diem in the case of Division I and Re. 1 in the case of Division II prisoners.

(2) When released prisoners in Divisions I and II will have to travel to their homes by rail, they shall be provided on the Railway Credit Note system with intermediate class accommodation.

38. **Weighment.**—Prisoners in Divisions I and II shall be subject to the provisions of Rule 1170, and shall be weighed in shirt, trousers or dhuties and socks. All other clothing shall be discarded at the time of weighment.

39. **Prisoners subject to Jail Code in other respects.**—In all other respects prisoners in Divisions I and II are, unless otherwise provided, subject to the ordinary rules of the Jail Code.

40. **Abstract of rules to be hung in cells and wards.**—The Superintendent shall cause an abstract of the rules relating to discipline and conduct, rewards and punishments affecting prisoners in Divisions I and II to be placed in each cell or ward.

41. **Eligibility of certain convict for transfer to Andamans.**—Intelligent convicts of European parentage who have a good character, and who are likely to be useful either from special knowledge or general qualifications, and who, being sentenced to long terms, have undergone at least one-half of their sentences (equal to seven years in the case of life-convicts) are eligible for transfer on a license to be at large to the Andamans, where they will be engaged in superintending Indian convicts at work, and in seeing that the orders of the Settlement Officers are duly carried into effect, or as clerks attached to the different Government offices in the Settlement. In submitting the name of any European prisoner for transfer on a license to be at large, the Superintendent shall detail fully all the prisoner's qualifications. Information should then be given under the following heads:—

(*a*) The facts and nature of the prisoner's original sentence.

(*b*) His behaviour, character, and health while in jail.

(*c*) His capacity of being useful at Port Blair, and in what capacity.

(*d*) His education.

[Fifth publication.]

No. 121.—22nd July 1930.—The following draft of rules and schedule of rates of tolls, which, in exercise of the power conferred by sections 6 and 11 of the Canals Act, 1864

(Bengal Act V of 1864), the Governor in Council intends to make for the Roypasa-Bheduria khal, commonly called the Roypasa khal, joining Kalijira river at the north, Karapur Bagadi in the west and Nathullabad khal leading to Barisal at Dephulia and Haripasa in the east, in the district of Bakarganj, is hereby published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 12th September 1930, and any objections or suggestions received by the undersigned before that date will be considered:—

Draft rules and schedules of rates of tolls.

1. Every vessel on entering the channel and before passing the gate at either end or even when entering the channel from a side khal between the gates shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, a vessel may be measured again by any person appointed by the District Board of Bakarganj on this behalf.

2. Vessels for the purpose of the determination of maundage shall be divided into two classes as below:—

Class I.—To include all vessels of the types of country boats, including saltees and hapors (fish cages), house boats, kosh boats, green boats, etc.

Class II.—To include steam boats, motor boats, flats and barges and other square-built vessels.

3. The maundage of every vessel, whether laden or empty, shall, for the purpose of Act V (B. C.) of 1864 and of these rules, be determined by the following measurements:—

CLASS I.

A. The product of one quarter the length of the vessel from stem to stern measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B. The measurement of the length is to be made in feet, rejecting inches; the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. **Saltees.**—The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

CLASS II.

For vessels of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one-half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds. In the case of steamers and motor boats the maundage determined as above shall be reduced by one-third as an allowance of engine space.

For vessels of class II which are furnished with reliable way bills, the gross maundage of cargo shown by the way bills or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which must be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the sarang, manjee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket must be kept on board the vessel and in possession of the person in charge of the vessel and must be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of Government, District Board, other local bodies or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the District Board of Bakarganj from time to time.

10. The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length and 5 feet in breadth shall be permitted to enter the canals.

12. The rates of toll shall be as follows:—

(1) On all vessels empty or laden, per hundred maunds—Twelve annas.

(2) On all vessels empty or laden, for 12½ maunds or less—One anna six pies.

(3) On rafts of bamboos, grass, timber, etc., not exceeding 50 feet in length and 5 feet in breadth—Six annas each raft.

Tolls will be levied at Dephulia, near Baniakati bridge.

13. For boats frequently using the canal, such as boats carrying passengers, grass or perishable articles monthly tickets will be issued at 10 times the ordinary toll.

14. Every vessel which has paid toll shall be allowed to remain in the canal for three days inclusive of the days of entry into and leaving the canal. A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month. Provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. No vessel carrying exclusively police officers or servants, soldiers and officers of the British Army, post mail runners, officers of the Irrigation Department on duty, officers and servants of the toll office for the canal referred to in these rules while on duty, or the vessels of such other persons as may be exempted by a resolution of the District Board of Bakarganj, shall be liable for toll in the canal.

16. Any matter relating to the mode of collection of tolls and other relevant points, not provided for in these rules, shall be decided by the District Board of Bakarganj at a meeting, and shall be subject to the approval of the local Government.
